

Essence: Sweet children, open big shops (centres) in the big cities. Have *meetings*, make *plans* and think about how to increase *service*.

Question: Everyone knows about physical *wonders*, but what is the biggest *wonder* of all that only you children know about?

Answer: The biggest *wonder* of all is that the Father, the Bestower of Salvation for All, Himself, comes and teaches us. In order to tell everyone about this *wonderful* thing, you have to have a lot of show at your shops, because it is only when people see a lot of *show* that they go somewhere. Therefore, the best and biggest shop should be in the *capital* so that everyone can come and understand.

Song: To live in Your lane and to die in Your lane.

Om shanti. God Shiva speaks. It can also be said “God Rudra speaks” because it is not the rosary of Shiva that is remembered. The rosary that human beings turn so much on the path of devotion is called “The Rosary of Rudra”. It is the same thing but Shiv Baba teaches you in the *right way*. It should be the other name, but the name “Rosary of Rudra” has continued. Therefore, it also has to be explained that there is no difference between Shiva and Rudra. It is in the intellects of you children that you have to make good effort and come close in Baba’s rosary. You are given an example of how children race to their goal, touch it and then come back and stand beside the *teacher*. You children know that you have been around the cycle of 84 births. You now have to go and be threaded in the rosary first. That *race* is of *human students*, whereas this is a spiritual *race*. You cannot have that *race*. This is a matter of souls. Souls don’t become young or old, or bigger or smaller. Souls remain the same size. You souls have to remember your Father. There is no question of difficulty in this. Although some become slack in studying this, what difficulty is there in this remembrance? None at all! All souls are brothers. In that *race*, young ones would run faster. That doesn’t apply here. You children *race* in order to be threaded in the rosary of Rudra. It is in your intellects that there is a tree of you souls. That is the rosary of all human beings who belong to Shiv Baba. It isn’t a rosary of just 108 or 16,108; no. It is the rosary of all human beings. You children understand that all will go and become present, numberwise, in their own religion, and that they will go to the same place again every cycle. This too is a *wonder*. No one else in the world knows about these things. Among you, too, those who have broad, unlimited intellects are able to understand these things. The only concern you children should have in your intellects is how to show everyone the path. This is the rosary of Vishnu. From the beginning, there is the genealogical tree. There are also the branches and twigs. There are tiny souls up there and there are human beings here. Then, all souls will go and stand there *accurately*. These are *wonderful* matters. The physical *wonders* that people go to see are nothing. It is such a *wonder* that the Supreme Father, the Supreme Soul, the Bestower of Salvation for All, Himself, comes and teaches us. Krishna wouldn’t be called the Bestower of Salvation to All. You have to imbibe all of these *points*. The main aspect is: Who is the God of the Gita? Once you gain victory in this, that’s all you need. The Gita is the mother, the jewel of all scriptures, spoken by God. You have to try this first. Nowadays, people want a lot of show. Many people rush to shops where there is a lot of *show* because they believe that there will be very good things there. Some children are worried that they would have to give one or two hundred thousand deposit for rent to open a large *centre*, as that’s the only way they would find a building they like. There should be just one big *royal* shop. Big shops are opened in big cities. The biggest shop you have should be in the *capital*. You children should churn how to increase *service*. When you open big shops, big, important people will come. The sound from big important people spreads quickly. Try to do this first. Create a huge place for *service* in a big city, so that important people come and see it and will be amazed. Those who explain at such places, also have to be *first class*. When a Brahma Kumari who is not so clever explains, people think that all Brahma Kumaris are like that. Therefore, there has to be *first-class salesmen* at the shops. All of this is a business too, is it not? The Father says: When you children have courage, BapDada helps. That perishable wealth is not going to be useful at all. You have to earn your imperishable income, just as this Brahma did. There will be benefit for many in this. No one starves to death. You are able to eat. This one also eats. The food and drink you receive here cannot be received anywhere else. Everything here belongs to the children. You children have to establish your own kingdom. You need very broad intellects for this. When your name is glorified in the *capital*, everyone will understand and believe that what you say is the truth; that only God can make you into the masters of the world. Human beings cannot make human beings into the masters of the world. Baba continues to advise you how to make *service* expand. *Service* will expand when children become generous hearted. Do whatever you do with great

generosity. To carry out an auspicious task by yourself is very good. It is said: Those who do something without being told are deities, those who do it after being told are human beings and those who don't do anything, even after being told, are! Baba is the Bestower. He is not going to tell anyone to do something or to spend a certain amount for a task, no. Baba has explained that big kings are never tight-fisted. Kings are always bestowers. Baba advises you about what you should go and do. A lot of caution is also required. Maya has to be conquered; your status then becomes very high. The *results* will be announced at the end. Those who *pass* with good *marks* will be very happy. At the end, all of you will have visions of what you have done. However, what could be done at that time? Each of you will receive whatever is in your fortune. Making effort is a different matter. The Father tells you children to have broad intellects. You are now becoming righteous souls. Many righteous souls in the world have been and gone. They are very famous: "So-and-so was a very righteous person." Some people acquire a great deal of money and then suddenly die. A *trust* is then formed. When a child is not worthy, a *trustee* is appointed for him. At this time, it is a world of sinful souls. People donate money to the big gurus etc. For example, the Maharaja of Kashmir *willed* all of his wealth to the Arya Samajis so that their religion would expand. What do you now have to do? What religion do you have to make expand? You just have the one original eternal deity religion. No one knows that you are once again establishing that religion. Establishment takes place through Brahma. You children must now stay in remembrance of the One. You purify the whole world with the power of your remembrance, because a pure world is needed for you. When it is set ablaze, it will be purified. Anything that has been spoilt can be purified by fire. All the impure elements are burnt in the fire so that only pure matter remains. You know that this world is very dirty and tamopradhan. It has to be made satopradhan. This is the sacrificial fire of knowledge. You are Brahmins. You know that many things have been written in the scriptures in connection with the sacrificial fire. The name of Daksh Prajapita is also mentioned. So, what happened to the sacrificial fire of the knowledge of Rudra? They sat and wrote so many stories about that! There is no proper description of the sacrificial fire. Only the Father comes and explains everything. You children have now created the sacrificial fire of knowledge on the basis of shrimat. This is a sacrificial fire of knowledge and it is also a university. Knowledge and a sacrificial fire are two separate things. A sacrificial fire has to have offerings put into it. The Father, the Ocean of Knowledge, comes and creates this sacrificial fire. This is a very important sacrificial fire into which the whole of the old world is to be sacrificed. You children have to make *plans* for *service*. You can also go and serve in the villages. Many people tell you to give this *knowledge* to the poor. They simply advise you; they themselves don't do anything. They don't do *service* themselves, but simply tell you to do this and that, that it is very good, but that they themselves don't have the time. They say: This *knowledge* is very good. Everyone should receive this *knowledge*. Those people consider themselves to be important and senior and you to be junior to them. You have to remain very cautious. Together with that study, you also have this study. Through education, you learn how to talk to people and develop good *manners*. Uneducated ones are ignorant. They don't have the sense to talk to people correctly. Important people should always be spoken to in a respectful way (saying "Aap"). There are even some here who address their husbands impolitely. To use respectful terms is *royal*. Eminent people should always be spoken to respectfully. Therefore, Baba advises you: Delhi, that used to be Paristhan, has to be made into Paristhan again. Therefore, everyone in Delhi has to be given the *message*. Very good *advertising* has to take place. Baba also keeps giving you *topics*. Make a *list* of *topics* and continue to write: Come and understand how peace can be brought to the world. Come and understand how to become free from disease for 21 births. Things of such great happiness should be written. Come inside and become free from disease and *double-crowned* in the golden age for 21 births. Definitely use the expression "Golden aged" in everything you write. Make sure it's in beautiful writing so that people become happy when they see it. Such *boards* with pictures should also be put up outside your homes. Carry on with your business etc., but also continue to do *service* at the same time. You don't do business throughout the whole day, you simply have to supervise everything. It is the *assistant managers* who do the work. Some rich and generous businessmen would give a good salary to their *assistants* and appoint them to a position. This here is unlimited *service*. Every other *service* is limited. You need a very broad and unlimited intellect to do this unlimited *service*. We are now conquering the world. We are also conquering death and becoming immortal. Many will come inside and try to understand when they see such writing as: Come inside and understand how you can become the masters of the land of immortality. You can find many *topics*. You can make anyone into a master of the world. There is no name or trace of sorrow there. You children should have so much happiness! What has

Baba come to make us into once again! You children understand that the old world has to become new. Death is standing just ahead. You can see how wars continue to take place. When the great world war takes place, the whole play will come to an end. You know this very well. The Father says with a lot of love: Sweet children, the sovereignty of the world is for you. You were the masters of the world. You experienced a lot of happiness in Bharat. Ravan's kingdom doesn't exist there. Therefore, you should have such great happiness. You children should meet together and discuss these things. Publicise it in the newspapers. Drop leaflets from an *aeroplane* over Delhi. Send out invitations. This won't incur a lot of expense. If a senior *officer* were to come and understand this knowledge, he might even do that *free* of charge. Baba advises you that in a city like Calcutta there should be a big, *first-class royal* shop in the Square; many customers would then come. There should be big shops in cities like Madras and Bombay etc. Baba is also the *Businessman*. Look at all the useless things not worth a penny that He takes from you and look what He gives you in *exchange*! This is why He is remembered as the Merciful One. He is the One who changes shells into diamonds, ordinary humans into deities. The greatness is of the one Father. What praise would you have if it weren't for the Father? You children should have the intoxication that God is teaching you. Your *aim* and *objective* of becoming Narayan from an ordinary human is in front of you. Those who were the first to start unadulterated devotion are the ones who will come and make effort to claim a high status. Baba explains such good *points*. You children forget them, which is why Baba tells you to write them down. Continue to write down the *topics*. *Doctors* study books. You too are *master* spiritual *surgeons*. You are taught how to give an *injection* to souls. This *injection* is of knowledge. No needle etc. is used for this. Baba is the eternal *Surgeon*; He comes and teaches souls. It is souls that have become impure. This is very *easy*. The Father is making us into the masters of the world. So, should we not remember Him? There is a lot of *opposition* from Maya. This is why Baba says: Keep your *chart* and think about *service* and you will have a lot of happiness. If there is no yoga, then, no matter how well someone may give knowledge, it would be very difficult to remain honest with the Father. If you feel that you are very clever and progressing well, you should send your *chart* of remembrance to Baba, so that Baba can understand to what extent you are telling the truth or not. Achcha. You children have been told that you have to become *salesmen* of the imperishable jewels of knowledge. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Keep your *aim* and *objective* in front of you and remain intoxicated. Become *master* spiritual *surgeons* and give everyone an *injection* of knowledge. Together with doing *service*, also keep a *chart* of remembrance and you will remain happy.
2. Have good *manners* when in conversation with others. Address others respectfully. Be generous hearted in every task.

Blessing: May you increase with the oil of *attention* the sparkle of the star's soul-consciousness form and become an image of attraction.

Since the star of the soul-conscious form has begun to sparkle through the Father and His *knowledge*, it cannot be extinguished, but the *percentage* of its sparkle can become less or more. This constantly sparkling star will attract everyone when you continue to pour the oil of *attention* into it every day at amrit vela. Just as a lamp burns steadily when oil is poured into it, similarly, to pay full *attention* means for oneself to imbibe all of the Father's virtues and powers. By paying such *attention* you will become an image that attracts.

Slogan: Reveal the seed of spiritual endeavour with an attitude of unlimited disinterest.
