

**Essence:** Sweet children, *practise* being soul conscious. The more soul conscious you become, the more *love* you will have for the Father.

**Question:** What wisdom do soul-conscious children easily develop?

**Answer:** How to give *regard* to those who are senior to you is the wisdom that soul-conscious children develop. Arrogance makes you into such a complete corpse that you are unable to remember the Father. When you become soul conscious, you remain very happy and are able to imbibe well. Your sins are absolved and you also have *regard* for the seniors. Those who have honest hearts understand for how long they remain soul conscious and remember Baba.

**Song:** Neither will He be separated from us nor will our love for Him die!

Om shanti. Who said this? The soul said it because, according to the *drama plan*, you children are now becoming soul conscious. You have been body conscious for half the cycle and you are now becoming soul conscious for half the cycle. You now have to *practise* being soul conscious. Baba repeatedly says: Children, may you be bodiless! May you be soul conscious! You children are sitting in front of Baba and others are sitting far away, but you all know that you have to become soul conscious and remember the Father. You must only follow Baba's *shrimat*. This is called the most elevated directions. You should have a lot of *love* for the Father. The Father says: Now renounce your bodily relations including your body. You have to *practise* being soul conscious a great deal. The body is to be destroyed, whereas the soul is imperishable. Because of remembering perishable bodies you have forgotten the soul. It is explained to you children what a soul is. It is said that a soul is like a tiny *star*. It cannot be seen with these eyes. It cannot be seen without divine vision. People try very hard to see a soul, but they are unable to see it. Even if someone does see one through divine vision, he cannot understand what that thing is. It is not a big thing. A soul is extremely tiny, like a *star*; it is such a tiny point. It is very difficult for these things to sit in anyone's intellect because you have been body conscious for half the cycle. The Father explains: Have the faith that you are a soul. We souls are residents of that place. We adopt bodies here. This body is made of the five elements. When a foetus is ready, a tiny soul enters it and there is life. A soul is the truth and a living being and so the Supreme Father, the Supreme Soul, too, is the Truth and the Living Being. He is the Supreme Soul. He is not a big thing. Souls too are tiny. Just as He has knowledge, so you souls too have knowledge. It is a great *wonder* how such a tiny soul has all the knowledge within him. However, you children repeatedly forget these things; you become body conscious. You souls are now becoming the masters of the world through your bodies, that is, you are becoming *gods* and *goddesses*. The Father is *God*, *the Father*. However, in Bharat, Lakshmi and Narayan are called a *god* and *goddess* because the Father makes them so elevated. Look at what you become through this *knowledge*! Those who study well and *pass* their examinations earn a good income. Those who are very *beautiful* in the world also receive prizes. They are called "*Miss India, Miss America*". Those people make so much effort on their bodies. In the golden age they have *natural beauty* that attracts. Bodies are made out of satopradhan elements. They attract so much. The pictures of Lakshmi and Narayan and Radhe and Krishna attract everyone so much. Those pictures are not *accurate* pictures. There, they are satopradhan and so they have *natural beauty*. Baba explains all of this. Those people sing: "O Purifier" but they don't understand anything. They call out as though they are senseless, "O God, have mercy! Be merciful!" but they don't know who God is at all. If they knew the Father, they would also know the creation. This is why rishis and munis all say: Neither this nor that (Neti neti). This is absolutely right: no one knows the Creator or creation. If they were to know, they could become the masters of the world. You now know that it was the Father who made Lakshmi and Narayan like that. You are now sitting personally in front of the Father, but, because you have been body conscious for half the cycle, you are unable to have that much *regard*. You haven't become soul conscious at all! When you become soul conscious, your *regard* will increase day by day. When you become completely soul conscious, there will be *regard* for you. Your stage will continue to be reformed and there will also be happiness. It is numberwise. Just as the Father is explaining to you, so you must continue to show others the method of considering oneself to be a soul. Your cycle of 84 births has now come to an end. You now have to return home. We souls came from our home and adopted bodies here and are playing our *parts*. Your intellects also have the *knowledge* of how many births you have taken here. Only in becoming soul conscious is effort required. Maya repeatedly makes you body conscious. You now have to conquer Maya and become soul conscious. Sit in solitude and think: I am a soul. The Father has said: Constantly remember Me alone and your sins will be absolved. Don't have attachment to your body. I, the soul, am imperishable. I mustn't connect my intellect's yoga to even my brothers. A brother will not receive

an inheritance from a brother. You must neither remember any soul nor the body of any brother. Just remember the one Father. Only from the Father will the inheritance be received. I, the soul, am now going to my home and I will then go to the golden age and claim my fortune of the kingdom. There, we will be soul conscious. Here, Maya, Ravan, makes you body conscious. You are now once again making effort to become soul conscious. Continue to benefit yourself. Come and sit here in front of the pictures. Just as the *military* are made to *practise* on a *field*, so you now have to become soul conscious and *practise* remembering Baba. The Father says: You are My children. By becoming body conscious you have become Maya's. You call out: O Purifier! O Ocean of Knowledge! All the rest are oceans of devotion. There is so much expansion on the path of devotion. The Father comes into the false world and that too, in an ordinary form. It is fixed like that in the *drama*. The Father enters an impure body. He will not enter the body of Lakshmi or Narayan. They will have received their fortune of the kingdom. So, how could I enter them? No one recognises Me in My ordinary form. They call out to Me but they don't understand that I would also definitely have to enter someone's body. My form is an incorporeal point. So, I would definitely enter the body of Brahma, the Father of the People. The Father of the People definitely has to exist here and he would definitely have an old body. This Brahma is old, and Vishnu, who is new, is standing next to him (in the picture). There is so much knowledge in the picture of the Trimurti. Previously, you children used to invoke those deities. You used to offer so much hospitality to Shri Narayan. It was a *wonder*! I myself used to love Narayan so much. When the Shri Narayan soul was invoked, he was fed etc. Internally, I understood that I was becoming that. You would definitely offer that hospitality to someone who has already become that. That means, I am offering myself that hospitality. Baba also used to say that he was offering himself that hospitality. You children saw those things, didn't you? These things are so *wonderful*! No one else can explain these things. Only you can explain these things. This is completely new knowledge. The Father says: I am once again establishing the deity religion. At the beginning, there is the kingdom of deities, and in the middle there is the kingdom of Ravan. It is now the end. At the end the Father Himself comes. You children now know the beginning, the middle and the end and also what is to happen in a short time: destruction will definitely take place. It is said that the Mahabharat War took place and that it will take place again. At this time no one knows this. Only the one Father is the Purifier. He has come, and so how much time would remain now? Shri Krishna cannot be that. He took one birth in the golden age. He then changed his name and form from that of Krishna. The whole make-up of the body changed. The Father has explained that you, who were worthy of worship, have now become worshippers. The Father has explained to you how you take 84 births. He says: You have been body conscious for half the cycle. Now become soul conscious! You are souls. I am your Father, the Supreme Father, the Supreme Soul. I am Bodiless and I give you children My introduction. When the phrase, "Ask the gopes and gopis about supersensuous joy," is said, it is remembered that it refers to the final period, when the *result* of the examination comes close. The children who do a lot of *service* are definitely loved by everyone. They are the ones who are remembered first for the exhibitions. They write: Send so-and-so. This means that they themselves understand that others are cleverer than they are. However, there is also a lot of arrogance. You also have to give *regard* to your older brothers and sisters. No one would ever say: So-and-so is a hundred times better than me. No one has the wisdom to give *regard* to others. What would the condition be of those who don't follow what the Father says? Body consciousness makes them into corpses. The Father says: Become soul conscious! Wake up in the morning and remember Shiv Baba. They don't even do that! Very good maharathis stay in yoga very little. Even little children can explain knowledge, but that is explaining like a parrot. When you stay in yoga and also imbibe divine virtues, you can experience happiness. Without having yoga, your sins cannot be absolved. Someone who is pure is remembered. Therefore, there should be a lot of *love* for that One. It is explained to you again and again: Be "Manmanabhav!" You have been body conscious for half the cycle and you therefore find it difficult to become soul conscious; it does take a lot of effort. It takes so many years to create a stage of soul consciousness. To consider yourself to be a tiny soul and also to consider the Father to be a point and remember Him requires effort. Those who are honest will *feel* how much they themselves remember Baba. This *practice* is very *difficult*. It is not an easy thing to claim the sovereignty of heaven for 21 births. You understand that you are tiny souls and that roles of 84 births are recorded in you. The soul becomes the main *actor*. The soul becomes everything. However, because of becoming body conscious, soul consciousness has disappeared. This is the main thing you have to *practise*. This ancient yoga of Bharat is very well known. This is the Gita, but they have just removed the name of the incorporeal One and inserted

the name of a bodily being, a deity. The Father says: Those who have performed a lot of devotion from the beginning to the end are the ones who will go back up first. You too have performed a lot of devotion and so you children should have so much happiness that you have found the Father. Baba is teaching us this study and through it we become the masters of the world. Definitely follow Baba's directions now. Even when you follow the Father's *directions* and something goes wrong, He will put it right. When He gives advice, He then becomes responsible. You should continue to remember Shiv Baba again and again. That is why this Baba also always says: It is Shiv Baba who is telling you everything. Even I listen and understand that it is Shiv Baba who gives these *directions*. I also follow His *directions*. You remember Him and this one also remembers Him. Renounce the consciousness of the body. You have not come to Dada, the jeweller, you have come to Shiv Baba. He is the Ocean of Knowledge. You have come to Shiv Baba to drink the nectar of knowledge. You are continuing to drink the nectar of knowledge even now. Baba, the Ocean of Knowledge, continues to speak knowledge to you every day. Only remember Him. The Father doesn't tell you to renounce devotion. When you receive the light of knowledge, you automatically understand the difference between devotion and knowledge. You have been performing devotion for half a cycle, but no one has gone back home. It is only the one Father who can take you back. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. Follow the advice that the Father gives, considering it to be Shiv Baba's shrimat. Drink the nectar of knowledge and also enable others to drink it.
2. Remain engaged in *service* while giving *regard* to everyone. Renounce body consciousness and *practise* being soul conscious.

**Blessing:** May you be a master and a child and receive *regard* from the world by giving *regard* to each one's advice.

Whether someone is junior or senior to you, you definitely have to give *regard* to each one's advice because to reject any advice means to reject yourself. So, if you have to *cut* off anyone's waste, first give *regard* to that one: first give regard and then give correction. This is the method. When you have the sanskar of giving *regard*, you will receive *regard* from the world. For this, become a child and master, a master and child. Let your intellect be filled with unlimited feelings of benevolence.

**Slogan:** To apply the tilak of constant company on your forehead is the sign of "suhaag" (sign of being wed).
