

Essence: Sweet children, you are transforming this old world and making it new with your power of yoga. You have been born to do spiritual service.

Question: What are the signs of honest, true effort-making children?

Answer: Honest children never hide their mistakes. They instantly tell Baba. They are very egoless. Their intellects are constantly aware that whatever actions they perform, others will do the same. They never spread news of the *disservice* done by anyone. They remain busy in their own *service*. They never spoil their heads by seeing anyone's weaknesses.

Song: Have patience o mind! Your days of happiness are about to come.

Om shanti. The spiritual Father gives patience to the sweetest, spiritual children, just as a physical father gives patience. When someone is ill he is reassured and told: Your days of the suffering of your illness will change and days of happiness will come. A limited father gives you limited patience. That One is the unlimited Father who gives you children unlimited patience: Children, your days of happiness are now coming. Only a few more days now remain. Now stay in remembrance of the Father and also teach others. You are Shiv Shaktis. The Shakti Army of Shiv Baba is being created once again. These brothers (gopes) are also souls. They all take power from Shiva. You also take power. The Father has explained: There is no question of blessings or mercy in this. Stay in remembrance and continue to take power. Only by having remembrance will your sins be absolved. You will also continue to become powerful. The Shakti Army of Shiva was so powerful that it changed the old world and made it new. You know that you are changing this old world with the power of yoga. People signal upwards with their finger and say, "Remember Allah, God!" You children understand that these mountains of stone, that is, the world, will be changed by having remembrance of the Father. We are now establishing the land of angels. The Father explains to you children: Do a lot of *service* at exhibitions. Make effort! Sit and study whenever you have time. It is very easy. You children continue to receive teachings of every type. There is an account of each one's actions. The actions of kumaris are good. Those who are married say: If I were a kumari at this time, I would be a *free bird* and free from all these chains. Kumaris are *free birds*. However, when they keep bad company, damage is caused. A married woman has so many chains of her husband and children etc. There are so many bondages of systems and customs. Kumaris don't have any bondage etc. In Bombay, kumaris are now becoming ready. They say: We will take care of our state. Everyone makes so much effort for their own state. They say: Our Gujarat, our U.P. You are now claiming your own self-sovereignty. There should be no consciousness of "I am so-and-so from such-and-such a state". You mustn't be jealous of anyone. Don't spoil your head when you see someone's defects. Look at yourself and see to how many souls - brothers and sisters - you have shown the path of happiness. If you haven't shown the path to anyone, you are of no use and cannot climb into Baba's heart. If you don't climb into BapDada's heart, you cannot be seated on the throne (in the future). Baba knows that some children have a lot of interest in doing *service*. They don't have the slightest arrogance of their bodies. Others are very arrogant. They think that they are doing the Father a favour and not themselves. You should never look at anyone's weaknesses. "So-and-so is like this and he does this and that." Nowadays, there are some such clever children who spread news of the *disservice* done by others. "So-and-so is doing this and he is like this!" You should just carry on with your own *service*. The duty of you Brahmin children is to keep yourselves busy in *service*. The Father is sitting here and He receives all the news. The Father knows each one's stage. Seeing their *service*, He also praises them. You children should be enthusiastic about doing *service*. Each of you has to benefit yourself by doing this spiritual *service*. You have been doing that business etc. for birth after birth. Hardly any businessmen would do this business. The Father explains to you a very easy way to do *service*. Never defame anyone! Many do this. Maya even catches hold of good maharathis by their nose. If you don't remember Baba, Maya catches hold of you. The Father says: Because they see that I come in an ordinary body, they're unable to recognise Me. Some even give advice to Baba: Baba, You should do this and this! Their stage is such that when Baba tells them a small thing they become *traitors*. They give their own dictates to Baba. It is said that when a mouse found a piece of turmeric he thought he was a big grocer. They don't understand that they are doing *disservice*. Many continue to make mistakes. Sometimes their stage is elevated and sometimes low. This has continued all the time. Each of you has to check your own stage. Honest children instantly tell Baba about their stage. Some hide their mistakes. You have to be very egoless about this. Engage yourself in increasing *service*. Always remain aware: Whatever actions others see me perform, they will do the same. If I defame someone, others will also begin to do that. Many don't even think about this. The Father explains: Engage yourself in your own *service*. Otherwise, you will

repent a great deal. Some even become enemies. You have now been *transferred* from shudras and have become Brahmins, the mouth-born creation of Brahma. Those who have the five vices are said to be part of the devilish community. You belong to the deity community. You are conquering the vices in order to become deities. Deities do not exist here. Deities exist in the golden age. You are now becoming part of the deity community. You children have now been given a *chance* to explain to others. Continue to explain at the exhibitions. At the exhibitions and gatherings, you can feel everyone's pulse. You can't explain to anyone when you use *projectors*. People are only able to understand when you explain to them personally face to face. Exhibitions and gatherings are very good. You can have posters with writing on them too. You should have an interest in having exhibitions and gatherings. When you study *regularly*, your intoxication will rise. If you are in bondage, continue to remember the Father while staying at home and your sins will be absolved. It is good to remember Baba even while at home. However, it has become a very difficult thing for children to remember Baba. You don't remember the Father from whom you receive an inheritance for 21 births. Even the maharathis, who give very good lectures, do not remember the Father; nor can they wake up early in the morning. Even if they do wake up, when they sit to remember Baba, they doze off. The early morning *time* is very good for remembrance. People on the path of devotion also wake up early in the morning and busy themselves in remembrance. However, theirs is the stage of descending. Here, it is a matter of climbing up. Maya causes so many obstacles! If you do not wake up early in the morning and remember the Father, how would you be able to imbibe knowledge and how would your sins be absolved? However, as for conducting the murli, even small children can learn and begin to explain it. This study is for adults. It is such a big *university*! Some children do not have the intoxication of who it is who is teaching them. When Maya deceives someone, then don't look at that one, but continue to do your *service*. The Father continues to receive all the news. Some become body conscious and think, "This one is doing this and that one is doing that." They *waste* their *time* in defaming others. Your duty is to remain engaged in *service*. Whenever something happens, just give a signal to the Father, that's all. Don't think about others. You children should remain busy in *service* day and night. This is your business. Explain at the exhibitions every day: This is Shiv Baba and this is Prajapita Brahma. Prajapita Brahma has also been remembered from the previous cycle. "The human world is created through Prajapita Brahma." It isn't that human beings don't exist at all! God creates the human world, that is, He changes thorns into flowers. He creates the world through Brahma, but He does not do that from up above. Brahma has to exist here. It is explained to you so *clearly*! The Father says: I enter this one at the end of the last of his many births and change human beings into deities. So you children have to work hard doing *service* day and night. Take some *time* from your business and engage yourself in doing this service. You shouldn't say that you don't have time. If you were to fall ill, would you say that you don't have time? You have to make effort. Nothing can be done through inspiration. Even God can't do anything through inspiration so how could others do so? They believe that there's nothing God can't do, that He can even bring the dead back to life. Oh! but you say to God: O Purifier, come and make us pure from impure. You don't say anything else! You don't say: Come and bring the dead back to life! He is the Purifier. Bharat was pure. The Father says: I come every cycle and purify you. Maya then comes and makes you impure. I have now come to purify you once again. I tell you such easy things! Herbalists cure very severe illnesses with herbs and then they are praised. When someone has a child or receives wealth, he would say that he was blessed by his guru. OK, when the child dies, he would say: That is destiny! You children now understand all of these things. Sannyasis become pure and they are respected. They are hatha yogis; they cannot teach Raja Yoga. Those are sannyasis and people are householders, so how can we they say that we are their *followers*? The Father says: Children have to *follow* fully. Manmanabhav! Remember Me and you will become pure and come back home with Me. I am *ever* pure. Human beings make you impure and the Father comes and purifies you. He is the Ocean of Purity, Peace and Happiness. He is also making you the same. You souls purify yourselves with the power of yoga. You know that you will receive *first-class* bodies. Humans have to be changed into deities in a *practical* way. It isn't that you just have to wear deity clothes; you also have to pay full attention to yourself. There should be no body consciousness. Baba, I will definitely claim my inheritance from You. You also say: We will definitely make Bharat elevated. Only those who have faith say this. Some say, "How can all this be done in such a short time?" In fact, you must never have any of these doubts. When you have doubts, you become slack in your *service*. Very little *time* remains! Make as much effort as possible. Just see, when there is even a little upheaval through war, etc. everyone will then start to make effort. You understand that if you don't stay in full remembrance, you will have to struggle

with yourself. At that time, there will be many calamities and this is why the Father says: Continue to *gallop* as much as possible. This is a *race* of souls. The Father explains to you so well! Go and touch the target, that is, the Father's home, and then come down to the new world. This is a very *fine race*. The Father says: *Touch* Me, that is, come to the incorporeal world and then come down here again. Those who are immersed in yoga will come first of all. You want to go to the land of liberation. The Father says: Remember Me and you will be able to go there. Everyone likes the land of liberation and you will then come down to play your *parts*. No one receives eternal liberation. The term 'eternal liberation' doesn't exist in God's *history* and *geography*. You receive liberation-in-life in a *second* and everyone else becomes liberated. Everyone has to be liberated from the kingdom of Ravan. Those who make effort will claim a high status. You children have to become very sweet. Your nature has to be very sweet. You mustn't become angry. The name of Durvasa has been remembered. There are also some like that among the Raj Rishis. Always place your hand on your heart and see what you are doing and what status you will claim by doing that. If you don't do *service* and don't make others similar to yourself, what status will you receive? You mustn't be satisfied with just a little. The Father says: I have come to give you children *full* sovereignty. Therefore, remain courageous and demonstrate it practically. It's not possible to do this just by speaking about it. You also have to give your bones to the Father's *service*. Some do everything, but they sometimes become body conscious and become intoxicated and then fall. Maya is no less powerful! When you don't follow the Father's *shrimat*, Maya attacks you and you then divorce the Father. The Father makes you into the masters of the land of happiness and so you should have mercy on yourself. The Father gives you very *simple* advice. Many storms of Maya will come but you have to become mahavirs. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Have an interest in doing *service* and benefit yourself and others. Never spread news of anyone's *disservice*. Don't waste your time in thinking about others.
2. Be honest and egoless and increase service. Wake up early in the morning and remember the Father with a lot of love. Let your deeds be equal to your words.

Blessing: May you be a *master* sun of knowledge who burns the germs of old sanskars with the *powerful* rays of knowledge and yoga.

In order to burn the germs of old sanskars and transform any type of impure atmosphere, have the awareness: I am a *master* sun of knowledge. The duty of the sun is to give light and to finish rubbish. So, continue to perform this task with the power of knowledge and yoga and your elevated behaviour. If *power* is lacking, then the knowledge will only give light, and the germs of the old sanskars will not finish. Therefore, first become *powerful* with yoga-tapasya.

Slogan: Elevated thoughts of good wishes and pure feelings increase your account of accumulation.
