

Essence: Sweet children, you have come to this *university* in order to die from this world and to go to the new world. Your love is now for the one God.

Question: With which method of remembering of the Father do you become wealthy?

Answer: The Father is a point. Become a point and remember the Point and you will become wealthy. When you write a point (zero) beside one, it becomes 10 and then, when you write another zero beside it, it becomes 100 and then 1000. By your having remembrance of the Father, a zero continues to be added and you continue to become wealthier. Only by having this remembrance do you earn a true income.

Song: The Flame has ignited in the gathering for the moths.

Om shanti. The meaning of the song is so unique! For what is love created? For whom? For God, because when you die from this world, you go to Him. Do you have love like this for anyone else? Such love that you think you would die? Would anyone have such love? The meaning of the song is so *wonderful*! A moth has love for a flame, circles around it and then dies in the flame. When you love the Father you too have to shed your body, which means that you shed your body in remembrance of the Father. This song is of only the One. When that Father comes, those who love Him have to die from this world. When you love God, where will you go when you die? You will definitely go to God. People make donations and perform charity and go on pilgrimages etc. in order to go to God. Even when someone is about to die, people tell him to remember God. God is so famous! When He comes, He finishes the whole world. You understand that you come to this *University* to die from this old world and to go to the new world. The old world is called the impure world, *hell*. The Father is showing you the path to the new world. Simply remember Me! I am *Heavenly God, the Father*. You receive wealth, property, buildings etc. from that *father*. Daughters don't receive an inheritance. They are sent to other homes, which means that they cannot become heirs. God is the Father of all souls; everyone has to go to Him. Since there are very few human beings in the new world, the Father must definitely come at some time to take everyone back home. There are many human beings in the old world. In the new world, there are few human beings and a great deal of happiness. In the old world there are many human beings and a great deal of sorrow, and this is why they call out. Bapu (Gandhiji) used to say: O Purifier, come! He didn't really know Him. People understand that the Purifier is the Supreme Father, the Supreme Soul, God, that He is the *Liberator* of the *world*. Not everyone in the world believes in Rama and Sita. The whole world considers the Supreme Father, the Supreme Soul, to be the *Liberator* and the *Guide*. He *liberates* you from sorrow. Achcha, who then causes you sorrow? The Father cannot cause you sorrow because He is the Purifier. He is the One who takes you to the pure world, the land of happiness. You are the spiritual children of that spiritual Father. As is the Father, so the children. A physical father has physical children. You children now have to understand that you are souls and that the Supreme Father, the Supreme Soul, has come to give you your inheritance. When we become His children we definitely receive our inheritance of heaven. He is the One who establishes heaven. Don't forget that you are *students*. It is in the intellects of you children that Shiv Baba plays the flute (murli) in Madhuban. It isn't a bamboo flute here. Krishna *dancing* and playing a flute - all of that belongs to the path of devotion. However, it is only Shiv Baba who plays the flute of knowledge. Many people who compose very good songs will come to you. Generally, it is men who compose songs. You should only sing songs of knowledge through which you can remember Shiv Baba. The Father says: Remember Me, Alpha! Shiva is called a point. When businessmen write a zero, they refer to it as Shiva. Write a zero beside 1 and it becomes 10, and add another zero and it becomes 100. Then add another zero and it becomes 1000. You too have to remember Shiva. The more you remember Shiva, the more zeroes will be added and you become wealthy for half the cycle. There are no poor people there. Everyone there remains happy; there is no mention of sorrow. Your sins continue to be absolved by having remembrance of the Father and you become very wealthy. This is known as earning a true income from the true Father. Only this income will go with you. All human beings go back empty-handed. You will go with your hands full. Remember the Father! The Father has explained: If there is *purity*, you also receive *peace* and *prosperity*. Your souls were *pure* at first and then you became *impure*. Sannyasis are called *semi-pure*. Your renunciation is *full* (total). You understand how much happiness they (sannyasis) receive; they have a little happiness and nothing else but sorrow! Previously, they never used to speak of omnipresence. By speaking of omnipresence, they have continued to come down. There are many types of gatherings in the world because they earn an income from them; that is also their business. It is said: All businesses, apart from the business of becoming Narayan from an ordinary man, are like dust. Scarcely anyone does this business. After belonging to the

Father, you give everything, even your body, to the Father because you want a new body. The Father says: You can go to the land of Krishna, but only when the soul becomes satopradhan from tamopradhan. In the land of Krishna, you don't say: Make us pure! Here, all human beings call out: O *Liberator*, come! *Liberate* us from this world of sinful souls! You know that the Father has now come to take you back with Him. It is good to go there. People want peace. What is peace? No one can stay without performing actions. Peace exists in the land of peace. However, you still have to adopt a body and perform actions. In the golden age, even though you perform actions, you do have peace. People in peacelessness experience sorrow, for that is why they ask how they can receive peace. You children now know that the land of peace is your home. In the golden age, there is peace and happiness; there is everything there. Do you want that or do you only want peace? Because there is sorrow here, people call out here to the Purifier Father. People perform devotion in order to meet God. Devotion is at first unadulterated and then it becomes adulterated. Look what people do in adulterated devotion! Everything is shown so clearly in the picture of the ladder, but you first have to prove who God is. Who made Shri Krishna as he is? Who was he in his previous birth? You need to explain these things with great tact. The hearts of those who do good *service* witness it. Those who study well at a *university* definitely go ahead; it is numberwise, there are still some who are *dull heads*. Souls say to Shiv Baba: Open the lock on my intellect! The Father says: I have only come to open the locks on your intellects, but your actions are such that the locks just do not open! So, what can Baba do? Many sins have been committed. What would Baba do about such children? *Students* would tell the *Teacher* that they don't study enough. What would the *Teacher* do? The *Teacher* would not have mercy. Perhaps He would give you *extra time*. That is not forbidden. The exhibition is wide open; you can go and *practise* there. On the path of devotion, some tell you to turn the beads of a rosary, and others tell you to remember a mantra. Here, the Father gives His own introduction. Remember the Father, for, by doing this, you will receive your inheritance. Therefore, you should claim your full inheritance from the Father very well. In this too, the Father says: Never indulge in vice! If you have the slightest *taste* for vice, it increases. Even if you have the *taste* for smoking a *cigarette* once, that habit would develop because of the colour of the company. It then becomes difficult to break that habit. Then they make so many excuses! No habits should be developed. Dirty habits should be broken. The Father says: Renounce the consciousness of the body while alive and remember Me. Only pure food is offered as bhog to the deities. Therefore, you too should only eat pure food. Nowadays you can't even obtain pure ghee; they just use oil instead. There is no oil etc. there. Here, they keep *pure* ghee and also false ghee in the *dairies*. They say "*pure ghee*" for both and yet there is a difference in their cost. You children should now bloom like flowers and remain cheerful. There is *natural beauty* in heaven. There, even the elements are satopradhan. No one here can create *natural beauty* like that of Lakshmi and Narayan. No one can see them with their physical eyes. Yes, they do have visions, but, even after seeing them in visions, no one can make an identical picture. Yes, if an *artist* has a vision and he continues to draw at that time, it would still be difficult in spite of that. So you children should have a lot of intoxication. Baba has now come to take us back home. We are going to receive our inheritance of heaven from the Father. Our 84 births are now coming to an end. By keeping such thoughts in your intellects, you will remain happy. There shouldn't be the slightest thought of vice. The Father says: Lust is the greatest enemy. This is why Draupadi called out. She didn't have five husbands. She called out to be saved because Dushashan was stripping her. How could she have had five husbands? Such things are not possible! You children continue to receive new *points* and so you have to keep *changing* the pictures. You should *change* something or other and add more words. You write that, in a short time, you will make Bharat into the land of angels; you issue this *challenge*. A father would tell his children: the *son shows the father and the father shows the son*. Which *Father*? Shiva and the saligrams; they are remembered. *Follow* whatever Shiv Baba explains. It is of Him that it is said: *Follow the Father!* By *following* physical *fathers* you became impure. That One makes you *follow* Him in order to make you pure. There is a difference. The Father says: Sweetest children, *follow* Me and become pure. It is only by *following* Me that you will become the masters of heaven. While *following* your physical fathers, you have been coming down the ladder for 63 births. By *following* the Father, you ascend. You have to go back with the Father. The Father says: Each of these jewels is worth hundreds of thousands of rupees. You know the Father and you claim your inheritance from Him. They say that they will merge into the brahm element. No one can merge; they have to come again. The Father explains to you every day: Sweetest children, first of all, give everyone the Father's introduction. The Father from beyond gives you an inheritance to make you pure. This is why people say to the unlimited Father: Purify us! He is the Purifier. A physical father cannot be called the

Purifier. He himself continues to call out: O Purifier, come! Therefore, give the introduction of the two fathers to everyone. Your worldly father tells you to get married and become impure whereas the Father from beyond this world tells you to become pure. He says: By remembering Me, you will become pure. The one Father purifies everyone. These *points* are very good to explain to others. Churn the various *points* of knowledge and explain them to others. This is your business. You are the ones who purify the impure. The Father from beyond now says: Now become pure because destruction is just ahead. What should you do now? You should definitely follow the directions of the Father from beyond. You should write this promise at the exhibition: I will *follow* the *Father* from beyond and stop being impure. Write: I am giving this *guarantee* to the Father. Everything depends on *purity*. You children should have happiness day and night. The Father, Alpha, is giving us our inheritance of heaven, beta, the kingdom. You now understand that the birthday of Shiva means the birthday of the heaven of Bharat. The Gita is the jewel of all scriptures. It is said: Gita, the mother. Only from the Father do you receive your inheritance. Only Shiv Baba is the Creator of the Gita. You receive your inheritance to become pure from the Father from beyond. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Always maintain the awareness that you are *Godly students*. Don't create any dirty habits, but finish them. There shouldn't be the slightest thought of vice.
2. Forget the consciousness of the body while alive and remember the Father. Churn the different *points* of knowledge and do the business of purifying the impure.

Blessing: May you make your thoughts and intellect work under your *orders* with Godly *authority* and become a *master* almighty authority.
Just as you are able to move your physical hands and feet as and when you want and use them to perform actions, similarly, your thoughts and intellect should be directed to wherever you want. This is known as having Godly *authority*. Just as it is easy to come into sound, so it should be just as easy to go beyond sound. By practising this, you will become an image that grants visions. So, let this practice become easy and constant and you will then be said to be a *master* almighty authority.

Slogan: Let your original stage be powerful, for any adverse situations is nothing compared to that.
