

- Essence:** Sweet children, you are spiritual *surgeons* and *professors*. You have to open *hospital-cum-universities* and benefit many.
- Question:** The Father establishes a religion, but other founders of religions also came and established religions. What is the difference between the two?
- Answer:** The Father simply establishes a religion and goes back, whereas all the other founders of religions go back after creating a reward for themselves. The Father doesn't create a reward for Himself. If the Father were to create a reward for Himself, He would also need someone to inspire Him to make effort. The Father says: I do not want to rule a kingdom. I create a *first-class* reward for you children.
- Song:** O traveller of the night, do not become weary! The destination of the dawn is not far off.
- Om shanti. It is as though you children composed this song. No one else can know the meaning of the song. You children know that extreme darkness is now coming to an end. It became dark gradually. Now, at this time, you would say that it is extreme darkness. You have now become travellers to go into the light, that is, to go to the land of peace, your Parent's home. That is the Parent's home which is pure whereas this is the parents' home which is impure. You call the Beloved, who is sitting in Prajapita Brahma, the Father. He purifies you and takes you back to His home. That One is the Father and this one is also the father. That One is incorporeal and this one is corporeal. No one, apart from the unlimited Father, can say 'children'. Only the Father says this because He has to take you children back home with Him. He purified you and gave you *knowledge*. You children understand that you definitely do have to become pure. You have to remember the Father and the whole world cycle. You become *ever wealthy* through this knowledge. Some say: Tell me whether there is any service for me to do. The service is to give three feet of land and open a spiritual *college-cum-hospital* on it. Then, there won't be any burden on that person. There is no question of asking for anything. You are advised that if you have money, open a spiritual *hospital*. There are many who don't have any money. They too can open a *hospital-cum-university*. As you progress further, you will see that many *hospitals* will be opened. Your name is written as spiritual *surgeons* - spiritual *surgeons* and *professors*. There is no expense in opening a spiritual *hospital* and *university*. *Males and females* can both become spiritual *surgeons and professors*. Earlier, *females* didn't become those; all the business activities were in the hands of men. Nowadays, women have also emerged to do that. Therefore, you too do this spiritual *service*. When you are attracted by this knowledge, it is easy to explain to anyone. Put up a *board* outside your home. Some *hospitals* are big and others are small. If a *patient* needs to go to a big *hospital*, you should tell him: Come and I will take you to the big *hospital*; there are senior *surgeons* there. Senior *surgeons* give advice to junior *surgeons*. They take their *fees* and then advise the patient who is in a certain condition that he should therefore be taken to a bigger *hospital*. They give such advice. Therefore, open such *centres* and put up *boards* so that people become amazed. This is something that has to be *commonly* understood. The golden age definitely comes after the iron age. God, the Father, is the One who establishes the new world. When you find such a Father, why not claim your inheritance from Him? Give happiness to this Bharat through your thoughts, words and deeds. Your thoughts, words and deeds have to be spiritual. 'Thoughts' means remembrance and the words you relate are only the two words 'Manmanabhav' and 'Madhyajibhav': remember the Father and the inheritance. These are two expressions. How you claimed your inheritance and how you then lost it is a secret in the cycle. Old mothers should also have this interest. You mothers should say: Also teach us this. Even the old ones can explain that which none of the scholars or pundits can explain. This is how you will glorify the name. The pictures are also very easy to explain. If some don't have it in their fortune, they won't make effort. Don't just think that you now belong to Baba. Souls belong to the Father anyway. The Father of all souls is the Supreme Soul. This is a matter of a *second*, but you do have to explain how you receive your inheritance from Him and when He comes. He will come at the confluence age. He explains that you took this many births in the golden age, and this many births in the silver age. You have completed the cycle of 84 births. Heaven is now to be established again. There are no other religions in the golden age. This is something so easy. There will be a lot of happiness by explaining to others. You will become healthy because you receive their blessings. This is very easy for the old mothers. They have experience of the world. If they explained this to anyone, they would show wonders. Simply remember the Father and claim your inheritance from Him. As soon as you take birth you begin to say "Mama and Baba" through your mouth. You have large *organs*. You can understand this and explain to others. You old mothers should have a lot of interest in glorifying Baba's name and so you should become very sweet. All attachment should be removed. Everyone has to die.

There are only a few more days to live and so why should you not connect your intellects in yoga to One? Whatever time you have, stay in remembrance of the Father and end your attachment to everyone else. When some reach the age of 60, they go into retirement. They can explain very well. Imbibe this *knowledge* and then also benefit others. If daughters from very good homes make such effort and go and explain in every home, the name would be glorified so much. You should make effort to study and maintain this interest. This *knowledge* is so *wonderful*. Tell them: Look, the iron age is now coming to an end. Death for everyone is just ahead. The Father comes at the end of the iron age and gives you the inheritance of heaven. Krishna would not be called the Father; he is a small child. How did he receive the kingdom of the golden age? He must definitely have performed such actions in his *past* birth. You can explain that this one (Brahma) truly did create his reward by making effort. He made effort in the iron age and received his reward in the golden age. There, there is no one who could inspire others to make effort. They received so much reward in the golden and silver ages. You definitely have found the highest-on-high Father who makes you into the masters of the *golden* and *silver* ages. No one else can make you this. You have definitely found the Father. You will not find Lakshmi and Narayan themselves. It isn't that you found Brahma or Shankar either. No, you have found God. He is incorporeal. No one, apart from God, can inspire you to make such effort. God speaks: I create a *first-class* reward for you. The original eternal deity religion is being established. Establishment has to take place here. It is the Father who inspires you to make effort. All the others who establish religions continue to come down one after another. Those who establish religions create a reward for themselves and leave. The Father doesn't have to create a reward for Himself. If He created a reward, He would also need someone to inspire Him to make effort. Shiv Baba says: Who would inspire Me to make effort? My *part* is such that I do not rule a kingdom. This *drama* is predestined. The Father sits here and explains: I explain to you the essence of all the Vedas and scriptures. All of that is the path of devotion. The path of devotion is now coming to an end. That is the stage of descent. It is now your stage of ascent. It is said: Due to the stage of ascent, there is benefit for everyone. Everyone receives liberation and liberation-in-life. Then, after coming down from 16 celestial degrees, you have to come to the stage of no degrees. There is the eclipse. An eclipse affects everything gradually. This is a matter of the unlimited. You are now becoming complete. Then, in the silver age, the degrees are reduced by two; you become a little impure. This is why you should make effort for the kingdom of the golden age. Why should you settle for anything less? However, not everyone can *pass* the examination and become 16 celestial degrees full. You children have to make effort and inspire others. Very good *service* can take place through these pictures. It is written very *clearly*. Tell them: Since the Father creates the creation of heaven, why are we still in hell? This old world is hell where there is nothing but sorrow. Then, surely the new world of the golden age should come. The intellects of you children have faith. There is nothing of blind faith here. There is nothing of blind faith in any of the *colleges*. The *aim* and *objective* is just ahead. People study at those *colleges* in this birth and they receive the reward of that in this birth. Here, you will receive the reward of this study in your new birth after destruction. How could deities come into the iron age? It is very easy for you children to explain. Very good pictures have been created. The picture of the tree is also very good. *Christians* also believe in a tree; they happily celebrate in their kingdom (Christianity). Everyone has his or her own *part*. You also know that devotion has to take place for half the cycle. There is everything such as sacrificial fires, tapasya, pilgrimages etc in that. The Father says: I can't be found through them. When your devotion comes to an end, it is then that God comes. For half the cycle there is knowledge and for half the cycle there is devotion. It is *clearly* written in the picture of the tree. Just have a picture without any writing and you can then explain that. You have to pay *attention* to the pictures; they have *wonderful knowledge*. It isn't that because you have taken a body on *loan*, you would consider it to be your property. No, you would understand that you are just a tenant. This Brahma is sitting here; that One also has to be made to sit here, just as the landlord and tenant both live in some buildings. Baba does not sit in this one all the time. This one is called the chariot of Hussein. For instance, the *Christ* soul entered the body of an adult and established the *Christian* religion. In his childhood, the body was that of a different soul. That person didn't have the incarnation in him in his childhood. The Nanak *soul* also enters that body later and establishes the Sikh religion. Those people cannot understand these things. These matters have to be understood very well. Pure souls come and establish a religion. Krishna is the first *prince* of the golden age. Why have they taken him into the copper age? They show the golden age to be the kingdom of Lakshmi and Narayan. You know that it is Radhe and Krishna who become Lakshmi and Narayan. They then become the masters of the world. How was their kingdom established? This is not in anyone's

intellect. You know that the Father only incarnates once and purifies the impure. You also have to prove the birthday of Krishna. He didn't give knowledge. First of all, the birthday of the One who made him that should be celebrated. People observe a fast etc. on Shiva's birthday. They also pour milk over Him (His lingam). They stay awake throughout the night. Here, it is the night anyway. For as long as you live, you have to observe the vow of purity. Only by observing this vow can you become the masters of the pure kingdom. On Krishna's birthday, you should explain that Krishna was beautiful and that he has now become ugly and that is why he is called Shyam-Sundar. This knowledge is so easy! Explain the meaning of Shyam-Sundar - how the cycle turns. You children have to become alert. Shiv Shaktis made Bharat into heaven. No one knows this. The Father is incognito, the knowledge is incognito and the Shiv Shaktis are also incognito. You can take the pictures and go to anyone's home. Tell them: You don't come to the *centre* and we have therefore come to your house to show you the way to the land of happiness. Then they would understand that you have good wishes for them. Here, there is no question of just pleasing your ears. At the end, people will understand that they truly have wasted their *lives*, whereas you people have really made something of your *lives*. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### Essence for dharna:

1. Become a conqueror of attachment and connect your intellect in yoga to the one Father. Become soul conscious and imbibe these teachings and also inspire others to do so.
2. Give Bharat happiness through your thoughts, words and deeds. Relate two words of knowledge to others and benefit them. Have positive thoughts for others and show everyone the way to the land of peace and the land of happiness.

**Blessing:** May you be *master knowledge-full* and fix your fortune of the *first division* with determined faith.

Determined faith fixes your fortune. Just as Father Brahma became fixed as the *first number*, similarly, let there be the determined faith that you have to come in the *first division*. Every child has received this *golden chance* in the *drama*. Simply pay *attention* to this practice and you can claim a *number* ahead. This is why you have to become *master knowledge-full* as you continue to perform every action. Increase the experience of His company and everything will become easy. Maya is a *paper tiger* in front of those who have the Almighty Authority Father, Himself, with them.

**Slogan:** Consider yourself to be a *hero* actor and continue to play your *hero part* in the unlimited play.
