

Essence: Sweet children, your heads should be constantly filled with happiness because you have now become *master knowledge-full*, like the Father.

Question: On what basis do you children become prosperous for 21 births?

Answer: At the confluence age you give everything of yours *directly* to the Father. You hand over everything to the Father and, in *return*, you become prosperous for 21 births. Baba says: At this time give whatever rubbish you have to Me. Before you die, *transfer* everything you have and you will receive the *return* of that in the future.

Song: Salutations to Shiva.

Om shanti. God Shiva speaks to you saligrams. The spiritual Father is explaining to the spiritual children. You children now understand that you have to sit here while considering yourself to be souls and not bodies. There is not a single human being in this world who understands what a soul is. If they don't know about the soul, how could they know about the Supreme Soul? You are given an explanation of the soul by the Father. Human beings don't know what a soul is or who the Supreme Soul is. That is why they are unhappy. You children now know how long this *drama* lasts and that the life cycle of this tree is 5000 years. You understand that if the seeds of those trees were living they would tell you how the tree emerges from the seed. However, all those seeds are non-living; this is the only living Seed of the *variety* human world tree. You children now have the whole *knowledge*. You have received the knowledge of the whole tree from its beginning to its end, numberwise, according to your efforts. Just as the knowledge of a whole tree is merged in its seed, so this Father is the living Seed. People sing that the Supreme Father, the Supreme Soul is the Truth, the Living Being and the Embodiment of Bliss. This praise is of the incorporeal One. His praise is completely distinct from that of anyone else. Human beings don't understand anything. Although deities receive their inheritance here, they do not have this knowledge there. This is a *wonderful* aspect. You now receive the whole knowledge here. You have in your intellects the *knowledge* of how the world cycle turns. The Father comes and creates the new kingdom. You are *actors* in this *drama*. Only you have the knowledge of the *drama* from its beginning, through the middle to its end and of the Creator and creation; no one else has this knowledge. Neither the shudra clan nor the deity clan has this knowledge. If they were to hear this, they would be wonder struck. People say that the festivals they celebrate have continued since time immemorial, but the Father says that they do not exist in the golden age. No one knows about the festivals. You now say that the festivals of Dashera, Diwali etc are coming. These things are not remembered there. You rule your kingdom without worrying about anything. The locks on your intellects have now opened. You are *actors*. You know the *Creator* of this *drama*, its *duration*, the *Director* and all the main *actors* etc. Those who retain this *knowledge* in their intellects will experience limitless happiness. Only *God*, the *Father*, is called *knowledge-full*, the Ocean of Knowledge. What *knowledge*? No one apart from you can understand this. Only *God* is called the *knowledge-full World Almighty Authority*. What *knowledge* is this? It is the knowledge of all the Vedas, the scriptures and the Granth etc. and the beginning, the middle and the end of the world. This knowledge is not in the scriptures. Those scriptures are of the path of devotion. People just continue to worship; they do not have *knowledge* of the Creator or His creation. This is why even sages and holy men etc. say that they do not know the Creator or His creation. Only the one Father can explain all of these things. Therefore, how could they know about these things? The *knowledge* that you receive from the Father will later disappear. No one, except you children, knows this *knowledge*. You receive such great *knowledge*. Therefore, how much happiness you children should experience! People go abroad to study medicine etc. Here, you become so healthy that there will be no need for *doctors* etc. there. We come to know everything from the unlimited Father who is *knowledge-full*. We are His children. So, your head should remain so full with this knowledge that you continue to experience a great deal of happiness. There is nothing that you don't know about. Whatever those people study is nothing. They study so many scriptures etc. of the path of devotion but none of them knows how this human world cycle turns. You children are now becoming *master knowledge-full*. You have come to know everything in a *nutshell*. You have to make souls that have become tamopradhan become satopradhan. There are some who, from tamopradhan have become tamo, some have become rajo from tamo and some have become sato from rajo, but no one could be said to be satopradhan yet. When you do become satopradhan, you will have reached your karmateet stage, numberwise, according to the effort you made. The new world will then be required for the kingdom. This is why the old world has to be destroyed. When the sacrificial fire of knowledge is about to come to an end, everything of this old world will be

sacrificed into it. When your study is completed you will attain your karmateet stage, numberwise, according to your efforts. Just as when students *pass* an exam and they are *transferred*, in the same way, you too will be *transferred* from this land of death to the land of immortality. We were in the land of immortality and, while taking 84 births, we came into the land of death. You say that you are now studying and that you will then go to the land of immortality and become deities. Only the Father changes ordinary human beings into deities. Who else could purify the impure and make them into deities? There are no deities here who could create deities. Lakshmi and Narayan would be needed, but they are not here. You children know that the Father comes at this time to teach you. He gives you your fortune of the kingdom of heaven. There was heaven; there was the kingdom of Lakshmi and Narayan. Who established their kingdom? It was *Heavenly God*, the *Father*, who created *Paradise*, satyug (the age of truth), where the deities ruled. There were no other lands at that time; there was only Bharat. It is in your intellects that, when you rule, no one else will exist there. The whole tree is in your intellects. Its Seed is up above. He is the Truth and the Living Being. Souls are *imperishable* and Baba is also *imperishable*. Baba tells you all the knowledge He has. The whole tree is in front of you and Baba is above it at the top. People at this time are completely degraded thorns. Because the tree is old, it has dried up, which is why this world is called the *jungle* of thorns. There, there is a garden of flowers. Baba is the Master of the Garden. Some call Him the Boatman and some call Him the Gardener. The Father is the Boatman. You are also learning how to sail your *boats*. Everyone's boat has become very old. The boat comprises both the soul and the body. People sing: "Take my boat across." Now that your boat is old, your body is also old. Now, how can it go across and where would it go? You understand what is meant by going across and what is meant by the land of liberation and the land of liberation-in-life. The Father is definitely taking you across. He takes you from the land of sorrow to the land of happiness, that is, from the ocean of poison to the ocean of milk. Those people simply sing: Take my boat across. O Master of the Garden, come and change us thorns into flowers. You too didn't understand this before. You have now come to know all the secrets of the supreme region, the subtle region and the golden age to the end of the iron age. Only the One who knows these secrets can tell you. If the knowledge continually trickles into you, you will always remain happy. Nothing remains for you to worry about. You become free from worry. You understand that Baba is taking us back with Him. We are now becoming like Baba. A child becomes like his father, does he not? Baba is *knowledge-full* and He has also made you *knowledge-full*. Souls have a *connection* with the Father, the Supreme Soul. You souls say: Whatever *knowledge* Baba has, He is giving it to us souls. You are the spiritual children of the spiritual Father. This too is a new aspect. No one except Baba can say this. The incorporeal Father says this with the support of a corporeal body. Otherwise, you wouldn't be able to hear Him. The Father makes the children similar to Himself. That Father is the Remover of Sorrow and the Bestower of Happiness. His praise is also your praise; there is no difference. So, what other difference remains? I do not enter the cycle of birth and death, whereas you come into the cycle of birth and death. I am called the Ocean of Knowledge and so I give you children this knowledge. I am the Ocean of Happiness, the Ocean of Purity and the Ocean of Peace and so I give you these as your inheritance. You know that this whole cycle is going to turn again after 5000 years. This *knowledge is your source of income*. The more you study, the more *income* you will earn through *knowledge*. This is *knowledge* as well as a business. Money lenders make deals. What do you give? Rubbish! A person's rubbish is given to a karnighor (special brahmin priest) after he dies, whereas you have to give everything you have while you are still alive. People give in the name of God. Now, would you give your old bed etc to God? The Father says: Give everything to Me before you die. All of those old things will be of no use to you. No matter how wealthy someone may be, for how long does that last? Just for one birth. After that, who knows where he would go and take birth according to his karma. You receive from the Father for 21 births according to the effort you make. This is spiritual *service*. Everyone in the world knows about physical *service*, but no one knows about spiritual service. It is the *Supreme Spirit* who comes and gives this *knowledge*. People celebrate the birth of that *Supreme*. Only He is called the Ocean of Happiness, the Ocean of Peace, the Remover of Sorrow and the Bestower of Happiness. His name is Shiva. His birthday is also celebrated, but they don't have anything in their intellects. Only the Father can reveal all of these secrets and He will reveal them to you again after 5000 years. This knowledge does not exist in the golden age, because souls there are satopradhan. It is only by having this knowledge that souls can become that. These are new aspects. Even those who built the temples to Lakshmi and Narayan don't know why they built those temples to them. Who gave them that kingdom? How did they attain that status? It is said that that is the fruit of their karma. The Father now sits here and

explains the secrets of the philosophy of pure action, neutral action and sinful action. They too must have heard this *knowledge*. These are the versions of God. It was through the Gita that the original, eternal, deity religion was established. There were very few people there, so where did the rest of the old world go? Surely, destruction must have taken place. The Mahabharat war is also remembered. It is said that the poet Girdhar said this. However, it is Krishna whom they refer to as Girdhar. Who is that poet? It is Shiv Baba who is called the Poet. A poet is someone who narrates something to you. You understand that there are going to be many calamities etc. Just look how they are preparing for the destruction of the old world! This is the time of the Mahabharat war when God comes and creates the sacrificial fire of knowledge of Rudra. For what does God create this sacrificial fire? A sacrificial fire is usually created for peace and happiness. The Father is the Remover of Sorrow and the Bestower of Happiness for all. Therefore, the whole of this old world will be sacrificed into this sacrificial fire of knowledge. You know that you Brahmins are the *servants* of this yagya (sacrificial fire). Since you Brahmins are the real mouth-born children of Brahma, you have to accept everything that Baba says through this mouth. By following the elevated directions of Shri, Shri we will become elevated and then become beads of the rosary of Rudra. Just as there is a genealogical tree of the Vaswanis and a genealogical tree of the Kirpalanis, so, too, Baba is up above and His genealogical tree is incorporeal. That incorporeal genealogical tree then becomes the corporeal genealogical tree. Brahma, the Father of Humanity, is first in this. So this one is physical and the other is spiritual. The spiritual Father comes and creates His creation through Brahma, the Father of Humanity. People call out to Him: O Purifier come! Come and purify this old and impure world. He does not create a new world, because annihilation can never take place. Therefore, the *world history* and *geography repeat* and the cycle of 84 births starts again from the beginning. You receive unlimited *knowledge* from the unlimited Father and you also receive an unlimited inheritance. Everyone remembers the unlimited Father and says: O God! When they say, “O Ishwar! O Prabhu!” they do not remember an image. It is the incorporeal One that they remember. People also say: “Remember God. He is the *Father*.” We are all *brothers*. It is said of souls that they are all *brothers*. Everyone calls out: O Purifier! O Bestower of Happiness and Remover of Sorrow! O *Liberator*, come and *guide* us back home. We have forgotten our home. We do remember our home, but we don’t know how to get there. When you have yoga, it is as though oil is being poured into the soul. Soul are imperishable. The lamp of each soul is not completely extinguished but you now have to add more oil of the power of yoga. Then, there will forever be the festival of lights (Deepmala); there will be light everywhere. Deepmala means that there is light in every home. Where will this Deepmala be? In the golden age, not here. You understand all of these secrets; you don’t have *blind faith*. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. In order to become *free* from all worry, become *knowledge-full* like the Father. Make your intellect continually churn this knowledge.
2. Do *spiritual service* and create your future reward. *Transfer* all your old things.

Blessing: May you be an image that grants and experience the Incorporeal and the subtle in the corporeal form with the lesson of One (ek).

Simply make the lesson of “One” firm and please the Bestower of Blessings. Then, from amrit vela until night time you will continue to be sustained as you move along and fly with blessings in every act you perform in your daily timetable. The lesson of “One” is: One strength (ek bal) and one support (ek bharosa), to follow one direction (ek mat), to be constant and stable (ekras), to have unity (ekta) and to have love for solitude (ekantpriya). The Father loves this word “one”. Those who make this lesson of “one” firm never experience anything to be difficult. Specially blessed souls receive special blessings and this is why it is as though they experience the Incorporeal and the subtle in the corporeal.

Slogan: Instead of stepping away from others and creating your stage, become a support for everyone.
