

Essence: Sweet children, everything depends on your karma. Always pay attention to see that you don't perform any wrong acts under the influence of Maya, for which there would have to be punishment.

Question: Who are the wisest of all in the Father's vision?

Answer: Those who have imbibed purity are wise. Those who are impure have no wisdom. Lakshmi and Narayan are said to be the wisest of all. You children are also becoming wise. Purity is essential for this. Therefore, the Father cautions you: Children, be careful that your eyes don't deceive you. Even whilst seeing this old world, do not see it. Remember the new world of heaven.

Om shanti. You sweetest, long-lost and now-found, children understand that you are now travellers in this old world for only a few more days. People of the world believe that they still have to stay here for another 40,000 years. You children have faith. Do not forget these things. Whilst sitting here, the hearts of you children should be bubbling. Whatever you can see with your eyes is all to be destroyed. Souls are immortal. I, this soul, have taken 84 births. Baba has now come to take us back home. When the old world is about to be destroyed, the Father comes to create the new world. It is in your intellects how the world is changed from old to new and new to old. We have been around this cycle many times before. The cycle is now coming to an end. There will just be a few deities in the new world; there will be no human beings there. Everything depends on your karma. When people perform wrong acts, their consciences bite them. This is why the Father asks: You have not performed any such sins in this birth, have you? This world is the impure, dirty kingdom of Ravan. This world is full of darkness. The Father is now giving you children your inheritance. You no longer perform devotion. Having been stumbling along in the darkness of the path of devotion, you have now come here. You now have the Father's hand. Because you didn't have the Father's support, you were drowning in the river of poison. The path of devotion continues for half a cycle. After you are given this knowledge, you go to the golden-aged, new world. This is the auspicious confluence age when, from being impure and dirty, you become beautiful and clean; you change from thorns to flowers. Who makes you this? The unlimited Father. You wouldn't call a physical father the unlimited Father. You also know the *occupations* of Brahma and Vishnu. So, how much pure intoxication you should have! The supreme region, the subtle region and the corporeal region all exist at the confluence age. The Father now sits here and explains to you children that this is the confluence of the old world and the new world. People call out: Come and purify us impure ones! The Father's *part* is only enacted at the confluence age. Since He is the *Creator* and the *Director*, He would therefore surely have some *activity*. You all know that He cannot be called a human being; He doesn't have a body of His own. Everyone else is either a human being or a deity. Shiv Baba can neither be a deity nor a human being. This body has just been taken on *loan temporarily*. He wasn't born from a womb. The Father Himself says: Children, how could I teach you Raj Yoga unless I had a body? Although people say that the Supreme Soul is in the pebbles and stones, you children now understand how I come. You are now learning Raj Yoga. No human being can teach this. No deity can study Raj Yoga. It is here, in the elevated confluence age, that you become deities by studying Raj Yoga. You children should have great happiness that you are now completing the cycle of 84 births. The Father comes at the end of every cycle. The Father Himself says that this is the last of this one's many births. Shri Krishna was a *prince* of the golden age; he went around the cycle of 84 births. Shiv Baba does not enter the cycle of 84 births. The Shri Krishna soul changes from ugly to beautiful. No one else knows these things. You too only know this, numberwise. Maya is very strong; she doesn't leave anyone alone. The Father comes to know everything. Maya, the alligator, can completely swallow anyone. The Father knows this very well. However, don't think that the Father is antaryami (One who knows the secrets of each one's heart); no. However, the Father can see the *activities* of everyone. News also comes to Baba. Maya completely swallows you raw. There are many such aspects that you children do not understand. The Father knows everything. People think that the Supreme Soul knows all the secrets within everyone. The Father says: I do not know all the secrets within each one. I know all about you from your behaviour. The behaviour of some is very dirty. Therefore, the Father repeatedly cautions you children and says that you have to be careful about Maya. However, even though the Father explains, it doesn't sit in the intellects of some that lust is the greatest enemy. They don't even realise that they are indulging in vice; this happens too. Therefore, Baba says: If you have made a mistake, tell Baba truthfully and do not hide it. Otherwise, the sin will multiply one hundred-fold. Your conscience will keep biting you inside. The sin will continue to grow until you completely fall. You children have to remain completely truthful with the Father, or else

you will suffer a great loss. This is Ravan's world. Why should we remember Ravan's world? We have to go to the new world. When a father is having a new house built, his children are very happy because they understand that a new house is being built for them. This is an unlimited aspect. The new world of heaven is being created for us. We are now about to leave for the new world. According to how much we remember the Father, so we will become beautiful. Because we were influenced by the vices, we became thorns. You children know that those who have stopped coming here are being influenced by Maya. They are no longer with the Father but have become *traitors* and gone back to the old enemy. Maya swallows many in this way; so many die. There were many very good ones who said that they were going to do this and that. They were also ready to give their lives to the yagya. Today, they are not here. Your battle is with Maya. No one in the world knows how this battling with Maya takes place. The scriptures portray a battle between the deities and the devils and how the war between the Kauravas and the Pandavas took place. You can ask anyone how these two aspects in the scriptures were possible. Deities are non-violent; they are in the golden age. Would they come into the iron age to fight? No one understands who the Kauravas and the Pandavas were. They just read whatever is written in the scriptures and then recite it. Baba has studied the whole Gita. When I received this knowledge, I started to think about the meaning of those things about war that have been written in the Gita. Krishna is not the God of the Gita. The Father was sitting in this one, and so He made us put aside that Gita through him. We have now so much light from the Father. It is the souls that receive light. This is why the Father says: Consider yourselves to be souls and remember the unlimited Father. When you used to remember Him in devotion, you said: When You come, I will surrender myself to You. However, you didn't understand how He would come or how you would surrender yourself to Him. You children now understand that we souls are just the same as the Father, but that the Father's birth is unique. He teaches you children so well. You yourselves say: That One is the same Father. He is the One who becomes our Father every cycle. We all say "Baba, Baba" and Baba says: Children, children. As your *Teacher*, He teaches you Raj Yoga and makes you into the masters of the world. Whilst belonging to this Father, you must also take the teachings that He gives you as your *Teacher*. Your hearts should be bubbling with happiness whilst you are listening to this. If someone becomes dirty, there cannot be that happiness. Even though they try hard, they are not part of our clan. There are so many *surnames* for people. All of those things are limited. Look how great your *surname* is! *Great-great-grandfather* Brahma is the greatest. No one else knows him. They say that Shiv Baba is omnipresent. No one even knows about Brahma. They have the picture of Brahma, Vishnu and Shankar, but they have placed Brahma in the subtle region. They do not know his *biography*. How could Brahma exist in the subtle region? How would he *adopt* you from there? The Father says: This is My chariot. I enter him in the last of his many births. This is now the auspicious confluence age in which the *episode* of the Gita takes place. The main aspect in this is purity. No one else knows how to become pure from impure. Sages and holy men etc. never say to you: Forget your body and all your bodily relations and only remember Me, the Father, so that all the sinful actions you have committed because of Maya will then be burnt away. They do not know the Father. The Father has said in the Gita: I come to uplift those sages etc. The Father explains: This is the last birth of all the souls who have been playing their *parts* from the beginning of the cycle until now. It is also this one's last birth. This one has become Brahma again. In his childhood, he was just a village urchin. He has completed his 84 births – from the *first* to the *last*. Now that the locks on the intellects of you children have opened, you are becoming wise. Before, you were senseless! Lakshmi and Narayan are sensible. An impure soul is called senseless. The main aspect is purity. You write: Maya made us fall. Our eyes became *criminal*. The Father repeatedly cautions you. He says: Children, do not be defeated by Maya. You now have to return home. Consider yourselves to be souls and remember the Father. This old world is about to be destroyed. We are becoming pure and so we also need a pure world. You children must become pure from impure. The Father would not have yoga. Baba doesn't become impure that He would have to have yoga. Baba says: I am here to serve you. You had been calling out to Me to come and purify you impure ones. It is because you called out to Me to come that I have come. I show you a very easy path to follow: Simply be "Manmanabhav". These are the words of God. Because they mentioned Krishna's name, everyone has forgotten the Father. The Father is *first*; Krishna is *second*. Baba is the Master of the supreme region whereas Krishna is the master of heaven. Nothing happens in the subtle region. Out of everyone, Krishna is *number one*; everyone loves him. All the others follow him. Not everyone can go to heaven. Therefore, sweetest children, your happiness should be so deep that it penetrates your bones. Many children who come to Baba can never remain pure. When Baba asks them: "Since you indulge in sin, why do you

come to Baba?” they reply: “What can I do? I cannot stay away. If I come here, perhaps the arrow can strike the target. Who but You, the Father, would grant me salvation? Therefore, I come and sit here. Maya is very powerful. I have the faith that Baba will change me from impure to pure and beautiful, but what can I do? By speaking the truth, maybe I will improve. I have the faith that I can be reformed by You.” Baba feels mercy for such children. It will happen like this again. *Nothing new!* Baba gives all of you shrimat every day, but only a few of you put it into practice. What can Baba do about this? Baba says that perhaps such are their *parts*; not everyone can become a king or queen. A kingdom is being established and all varieties are needed in a kingdom. Nevertheless, Baba says: Children, do not let go of your courage. You can make progress. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Always remain truthful to the Father. If you make any mistake now, do not hide it. Take care that your eyes never become *criminal*.
2. Always have the pure intoxication that the unlimited Father is changing you from impure and dirty to beautiful, from thorns into flowers. You are now holding on to the Father’s hand and, with this support, you will cross the river of poison.

Blessing: May you be a greatly fortunate soul who receives for Brahmin life a crown of *light* from the Father.

The speciality of the confluence-aged Brahmin life is purity. A symbol of purity is the crown of *light* which every Brahmin soul receives from the Father. This crown of the *light* of purity is even more elevated than the jewel-studded crown. This crown is a sign of a great soul, a soul with Godly fortune and a highest-on-high soul. BapDada gives every child at birth, the blessing “May you be pure!” and the symbol of that is the crown of *light*.

Slogan: With an attitude of unlimited disinterest, remove distress from souls who being distressed by their desires.
