

Essence: Sweet children, the Father has come to teach you spiritual art. Through this art you go beyond the sun and the moon to the land of peace.

Question: What is the difference between those who are proud of their *science* and those who are proud of their *silence*?

Answer: Those who are proud of their *science* spend so much money on going to the moon and stars. They risk their bodies and are afraid that their *rocket* may *fail*. You children, who are proud of your *silence*, go beyond the moon and the stars into the supreme region without spending a penny. You have no fear because you leave your bodies here and go.

Om shanti. The spiritual Father sits here and explains to you spiritual children. Children keep hearing about scientists who continue to make effort to go to the moon. Those people spend so much money on just trying to go to the moon, yet they have a lot of fear in going there. Now think about yourselves. What is your place of residence? They go to the moon, but you go beyond even the sun and the moon, right to the supreme region. When those people go up there, they are rewarded with plenty of money. After they have returned from their journey and they land, they receive hundreds of thousands of gifts. They *risk* their bodies when they go up. They are proud of their *science*; you are proud of your *silence*. You souls know that you are to return to your land of peace, the brahm element. It is souls that do everything. Those souls go up with their bodies too. It is very dangerous. They are afraid of falling from above and dying. All of that is physical art. The Father is teaching you spiritual art. By studying this art, you receive a huge *prize*. It is a *prize* that lasts for 21 births, numberwise, according to the effort you make. Nowadays, the *Government* holds a *lottery*. This Father gives you a *prize* and what does He teach you? He takes you to the absolute top, to your home. You now remember where your home is and where the kingdom that you lost is. Ravan snatched it away from you. Now, once again, you are to go to your original home and you will also claim your kingdom. No one knows that the land of liberation is your home. Now, look where the Father comes from in order to teach His children! He comes from so far away! Souls too are *rockets*. Those people try to go up and see what there is on the moon and the *stars*. You children understand that the moon and the stars are lights for this stage, just as they have lights on a physical stage here. You also have rope (fairy) lighting in the *museums*. This then is the unlimited world for which the sun, moon and stars provide light. People believe that the sun and the moon are deities, but they are not deities. You now understand how the Father comes and changes you from humans into deities. There are the Sun of Knowledge, the moon of knowledge and the *lucky* stars of knowledge. You children receive salvation through this knowledge. You go so far away! The Father has shown you the way to return home. Without the Father, no one can go back home. You understand this when the Father comes and teaches you. You souls also understand that it is only when you become pure you will be able to return home. You have to become pure either with the power of yoga or with the power of punishment. The Father continues to tell you that the more you remember Him, the purer you will become. By not remembering Him, you remain impure and there will have to be a lot of punishment experienced, and any status you had will be destroyed. The Father Himself sits here and explains how you can return home. You did not know what the brahm element is or what the subtle region is. *Students* do not know anything at first, but they start to understand when they begin to study. Some *knowledge* is of a lower level and some knowledge is of a very high level. When you have taken the *I.C.S.* examination, it is said that you are *knowledge-full*. There is no *knowledge* higher than this. You are now studying such elevated *knowledge*! The Father shows you the way to become pure: Children, if you remember Me alone, you change from impure to pure. Originally, you souls were pure and used to reside up above in your home. When you were in the golden age, in a life of liberation, all others were in the land of liberation. You could call the land of liberation and the land of liberation-in-life, the Temple of Shiva (Shivalaya). Shiv Baba resides in the land of liberation and you children, you souls, also reside there. This is the *highest* spiritual *knowledge*. Those people say that they want to go and live on the moon. They try so hard. They show their courage. They go so many *multimillions* of *miles* up! However, their desires are not fulfilled whereas your desires are fulfilled. They have false physical pride. You have spiritual pride. They show so much courage for the things of Maya. They are applauded and congratulated so much. They receive a lot of money; it might be something like five to ten million rupees. You children have the knowledge that all the money they receive is going to be destroyed. Only a few days remain. What is there today and what will there be tomorrow? Today, you are the residents of hell and tomorrow, you will become the residents of heaven. This doesn't take a lot of *time*. Theirs is physical power whereas yours is spiritual power which only you know about. How far can they go with physical

power? They may reach the moon and the stars, but the war will then begin and they will all die. Their art will end there. That is the *highest* physical art. Yours is the *highest* spiritual art. You go to the land of peace which is also called the *sweet home*. Those people go so high above. Calculate how many *miles* up you go. What are you? Souls! The Father asks: Can you calculate how many *miles* away I live? They can calculate and say how many *miles* they went before they returned. They are very cautious and think about the way they will go and the way they will return. They create a lot of noise. What noise do you make? No one knows where you go and how you return. Only you know the *prize* you receive. It is *wonderful*! It is Baba's wonder! No one knows about this. You might say that this is not a new thing; every 5000 years you will continue to *practise* this. You very clearly understand the beginning, the middle and the end of the *duration* of this world *drama*. So you should be proud of what Baba is teaching you. You are making very elevated effort and you will make this again. No one else knows these things. The Father is incognito. He explains so much to you every day. He gives you so much *knowledge*. Those people only go to a limited place, whereas you go to the unlimited. They go to the moon, but that is just a large light, nothing else. The earth from there is seen to be very tiny. There is so much difference between their worldly *knowledge* and your *knowledge*. You souls are very tiny, but you are very fast *rockets*. Souls reside up above and then they come down here to play their *parts*. That One is the Supreme Soul, but how can He be worshipped? Devotion definitely has to take place. Baba has explained that for half a cycle there is knowledge, the day, and for the other half there is devotion, the night. You are now receiving knowledge at the confluence age. There is none of this knowledge in the golden age, which is why this age is called the most auspicious confluence age. Baba makes all of you most elevated. You souls go so far away! You have the happiness of this. They show their art so that they can receive a lot of money. No matter how much they receive, you understand that they won't be able to take any of it with them. Everyone is about to die because everything is about to be destroyed. You now receive so many *valuable* jewels that you cannot calculate their *value*; each *version* is worth hundreds of thousands of rupees. You have been listening to them for so long. There is very *valuable knowledge* in the Gita. This is the only Gita which is called the *most valuable* Gita. The Gita containing the elevated directions of God is the jewel of all the scriptures. Those people continue to study the Gita but they do not understand the meaning of it and what will happen by studying the Gita. The Father says: Now remember Me and you will become pure. Although they study the Gita, not a single one of them has yoga with the Father; they call the Father omnipresent. They cannot become pure. The picture of Lakshmi and Narayan is now in front of you. They are called deities because they have divine virtues. You souls have to become pure and you then all have to return home. There aren't so many human beings in the new world. All the other souls will have to return home. The Father is giving you the most *wonderful knowledge* through which you become very elevated and change from humans into deities. Therefore, you should pay a lot of *attention* to such a study. It is also understood that whatever *attention* you paid a cycle ago, you will pay the same attention now; this can be understood. The Father is pleased to hear your news of *service*. If you never write to the Father, it is understood that your intellects' yoga has been drawn towards the pebbles and stones, that you souls have become body conscious and forgotten the Father. Otherwise, just think about when there is a *love marriage*, they have so much love for one another. However, later on, some change their minds and even kill their wife. Your *love marriage* is with that One. The Father comes and gives you His introduction. You don't receive His introduction automatically; the Father has to come. The Father comes when the world has become old. He definitely only comes at the confluence age to make the old world new. The Father's *duty* is to establish the new world. He makes you into the masters of heaven, and so there should be so much *love* for the Father! Why then do you say, "Baba, I forget you"? The Father is so elevated! There is no one higher than He is. People try so hard to attain liberation; they try so many ways. So much lying and deceit goes on. Maharishis etc. are glorified a great deal. The *Government* then gives them 10 or 20 *acres* of land. It is not that the *Government* is *irreligious*. There are some *ministers* who are *religious* and some who are *irreligious*. Some don't believe in religion at all. It is said, "*Religion is might*". The *Christians* had so much *might* that they swallowed the whole of Bharat. There is now no *might* left in this Bharat. There is so much quarrelling and fighting etc. What was this same Bharat like previously? No one knows how or where the Father comes. No one knows anything. You understand that the Father comes to the most degraded and impure land where there are alligators and crocodiles. People are such that they would eat anything. Bharat was the most Vaishnav (vegetarian). This is the Vaishnav kingdom, is it not? There is a vast difference between those great, pure deities and people now who keep swallowing all sorts of things! There are even cannibals here who eat

others. What has the condition of Bharat become? The Father now explains all the secrets to you. Baba gives you all the knowledge from the top to the bottom. You are the first ones who come on this earth and then the population of human beings increases. In a short while, there will be cries of sorrow; they will continue to cry. Look, there is so much happiness in heaven! Look at the symbol of your *aim* and *objective*. You children have to imbibe all of this. This is such a great study! The Father explains everything so *clearly*! He also explains the significance of the rosary. The tassel represents Shiv Baba. Then, because this is the household path, there is the dual-bead. Those on the path of isolation have no right to rotate a rosary. This is the rosary of deities. How did they claim that kingdom? Amongst you also, you are numberwise. Some of you are able to explain to anyone fearlessly. You say: Come, and we will tell you things that no one else can tell you. No one apart from Shiv Baba even knows them. Who taught them Raj Yoga? You have to sit with them and explain in a very sweet way how they take 84 births and how they become deities, warriors, merchants and shudras. The *knowledge* that the Father gives you is so easy, but you also have to become pure, for only then will you be able to claim a high status. You are the ones who establish peace throughout the whole world. The Father gives you your fortune of that kingdom. He is the Bestower; He doesn't accept anything. This is the *prize* of your study. No one else can give you this *prize*. Therefore, why not remember such a Father with love? You remember your worldly fathers throughout your lives; why do you not remember the parlokik Father? The Father has told you that this is a battlefield. It takes *time* to become pure; it will take until the time when the war ends. It is not that those who came in the beginning will become completely pure. Baba says that your war with Maya takes place with great force. Maya is so powerful that she even conquers very good children. How can those who fall hear the murli? They do not go to their *centre*, so how could they find out anything? Maya makes them *worth not a penny*. If they study the murli, they can remain alert. However, they become busy doing dirty work. A *sensible* child has to explain to them how they have been defeated by Maya, what Baba tells us and yet, where they are going! When you see that Maya is eating others, you should try to save them so that Maya does not swallow them completely. They have to be made conscious again. Otherwise, because they defame the name of the Satguru, they won't claim a high status. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for Dharna:

1. Learn the art of *silence* from the Father and go beyond this limited world into the unlimited world. By giving us this *wonderful* knowledge, the Father gives us such a great *prize* and so there should be the intoxication of that.
2. You have to do service fearlessly in a very sweet way. Be powerful in your war with Maya and gain victory over her. Listen to the murli and remain alert and inspire others to remain alert.

Blessing: May you become a fortunate soul with the sanskars of self-sovereignty and attain a right to the future kingdom.

The sanskars of ruling yourself over a long period of time will give you a right to the future kingdom over a long period of time. If you are repeatedly influenced and do not have the sanskars of having a right, you will then stay in the kingdom of those who simply rule over themselves, but will not attain the fortune of the kingdom. So, look at the image of your fortune in the mirror of *knowledge*. By practising this over a long period of time, you can make your special co-operative workers into your companions in the kingdom who work under your control. Become a king and you will then be said to be a fortunate soul.

Slogan: In order to do the service of giving sakaash, let your attitude of unlimited disinterest *emerge*.
