The *foundation* of the most elevated creation - love

Today, BapDada is pleased seeing His creation of elevated souls. This elevated and new creation is the most elevated and extremely loved creation of the world because it is the creation of pure souls. Because of being pure souls, you are loved at present by BapDada and you will be loved in your kingdom by everyone. In the copper age, you will become the deity souls who are loved by the devotees. At this time you are Brahmin souls who are loved by God, whereas in the golden and silver ages, you will be the supremely elevated deity souls who have a right to the kingdom, and from the copper age to now, the iron age, you become worthy-of-worship souls. Out of all three, you are elevated at this time; you are the supremely loved Brahmins souls who are to become angels. On the basis of your being elevated at this time, you remain elevated throughout the cycle. Even in this *last* birth you can see how much the devotees are invoking you elevated souls. They are calling out with so much love. Knowing that those are only non-living images, they worship you elevated souls with so much love; they offer you bhog and also do arti (worshipping with deepaks on a plate). Do you *double* foreigners feel that it is your images that are being worshipped? The Father's task was carried out in Bharat and this is why, together with the Father, there is the image of all of you in Bharat too. They build the maximum number of temples in Bharat. You have the intoxication that you alone are the worthy-of-worship souls, do you not? It was for service that you have spread in all directions of the world. Some have reached America and others have reached Africa, but why did you go there? At this time, you have sanskars of service and sanskars of love. The speciality of service is love. Unless they experience spiritual love with knowledge, they will not listen to knowledge.

When all of you *double* foreigners came to belong to the Father, what was the *foundation* of all of you? Love from the Father, love from the family, love from the heart, altruistic love. It was this that made you into elevated souls. So, the first form of success in service was the form of love. When you belong to the Father out of love, then any *point* of knowledge is easily clarified. Those who don't have love take time just to imbibe knowledge and move forward. They also take effort because their attitude is caught up in "what?, why? like this, like that" etc. a lot more, whereas when they become lost in love, because of their love, they find every word of the Father to be very loving. Their *questions* then end. Because the Father's love attracts them, even if they ask *questions*, they are in the form of trying to understand something. You are experienced in this, are you not? For those who are lost in love, they will only see love in whatever those whom they love say. Therefore, the main basis of service is love. Even the Father constantly remembers you children with love. He calls you with love and He enables you to cross all obstacles with love. So, the *foundation* of this Godly birth, of this Brahmin birth, is love. Those who have the *foundation* of love will never find anything difficult.

Because of love, they will have zeal and enthusiasm. "Whatever the Father's shrimat, we have to follow that." "I will consider it." "I will do it." - These are not the qualifications of someone who is loving. "The Father said this for me and I definitely have to do it." This is the stage of the loving souls who are in love. Those who are loving will not have any fluctuation. They will always be: the Father and I - there won't be any third person. Just as the Father is the greatest of all, so loving souls too always have a big heart. Those with a small heart will become confused about small things. Even small things will become big. For those with a big heart, even the big things will become small. All of you *double* foreigners are those with a big heart, are you not? BapDada is pleased to see all the *double*-foreign children. From so far away, you moths have reached here to sacrifice yourselves on the Flame. You are the firm moths.

Today, it is the *turn* of those from America. To those from America, the Father says: "Aa meere" (Come, Mine). Those from America also say: "Aa meere". This is a speciality, is it not? In the picture of the tree, from the beginning, they have specially shown America to be powerful. From the time when establishment began, the Father has been remembering those from America. You have a special *part*, do you not? Just as the power of destruction is elevated, what else is its speciality? Of course each place has its specialities, but the speciality of America is also that, on the one hand, they have greater preparations for destruction, and on the other hand, the *United Nations* to end destruction is also there. On the one hand there is the power of destruction, and on the other hand, the power to unite everyone. So, that is *double* power, is it not? There, they try to unite everyone, so it will be from there that this sound of a spiritual meeting will be heard loudly. Those people try to attain peace by uniting people in their own way. However, to unite them in the right way is the task of only you people. Those people try to unite everyone, but they are unable to do that. In fact, to bring souls of all religions into one family is the real task of you Brahmins. You especially have to do this. Just as the power of destruction is great there, so too, the sound of the power of establishment should also be heard loudly. They should hoist the flags of both destruction and establishment at the same time. One is the flag of *science* and the other is the flag of *silence*. When the influence of both, the powers of *science* and the powers of *silence*, are revealed it will be said that the flags of revelation can be hoisted. For instance, when a *VIP* goes to another country, flags are put up everywhere to welcome him. They raise flags of the homeland and also of the country of the person who has come. So, let them also hoist the flag of God's revelation. Let them also welcome God's task. When the Father's flag is hoisted in every corner, you will then be able to say that the Shaktis have especially been revealed. This is the year of the *Golden Jubilee*, is it not? So everyone should be able to see the *golden* stars. When those special stars are visible in the sky, everyone's *attention* is drawn to them. These *golden* sparkling stars should also be visible in everyone's eyes and their intellect. This is what it means to celebrate the *Golden Jubilee*. Where will these stars sparkle first?

There is now very good expansion in the lands abroad and there has to be this. The Father's children who have been hidden away in every corner, are now coming into contact according to the time. Each one is moving forward more than the other in service with zeal and enthusiasm. When you have courage, you also receive the Father's help. The lamp of hope is ignited even in those for whom there was no hope. People of the world think that it is impossible for this to

happen, that it is very difficult, but their love makes them free from obstacles and makes them reach here like a flying bird flying. You have reached here with *double* flight, have you not? One is the *aeroplane* and the other is the plane of the intellect. When you have wings of courage and enthusiasm, you can fly wherever you want. BapDada always praises the children because of their courage. By having courage, one lamp was ignited from another and a rosary was created. Very good fruit emerges for those who make effort with love. This is the speciality of everyone's co-operation. No matter what the situation, first there has to be determination and a gathering of love. Through that, success is visible in a practical way. Determination can enable fruit to be born in a very barren land. Nowadays, *scientists* are trying to grow fruit even in sand. So, what can the power of *silence* not do? The land that receives the water of love bears very large and tasty fruit. For instance, in heaven, the fruit will be big and *tasty*. Abroad, they have big fruit, but it is not *tasty*. The fruit looks very good, but it is not *tasty*. The fruits of Bharat are small, but they are *tasty*. The *foundation* of everything is laid here. The *centre* that receives the water of love becomes very fruitful at all times, in terms of service and in terms of companions. In heaven, there will be pure water and pure land, and this is why you receive such fruit there. Where there is love, the atmosphere, that is, the land there is elevated. In any case, what do people say when someone is *disturbed*? I don't want anything else, I just want love. So, the method of saving yourself from being *disturbed* is only love. BapDada has the greatest happiness about the fact that children who were lost have now come back. If you hadn't gone there, how could service take place there? This is why your separation also becomes benevolent. And, to meet is benevolent anyway. All of you are moving forward at your own places with zeal and enthusiasm and all of you have the one aim that you should fulfil the one hope of BapDada, of making all the orphan children belong to the Father. The programme for peace that all of you made together is also good. Then, at the very least, you will become instruments to make people practise staying in *silence* for a short time. If someone were to experience *silence* in the right way for even a *minute*, then that one *minute's* experience of *silence* would automatically continue to pull him over and over again, because everyone wants peace. However, they don't know the method and they don't have the company. Since all souls love peace, then when such souls experience peace, they will automatically continue to be pulled. At every place, there are elevated souls who have become good instruments to carry out their special tasks. So, to perform wonders is not a big thing. The means of spreading the sound are the special souls of today. The more those special souls come into contact, the more that many other souls will also be benefitted through their contact. Through one *VIP*, many ordinary souls are also benefitted. However, they will not come into close relationship. In their own religion and their own *part*, they receive one or another fruit of their own speciality. The Father loves those who are ordinary. They are the ones who can give time, whereas those others don't have any time. However, when they become instruments, many are then benefitted. Achcha. Om shanti.

BapDada meeting groups:

Do you experience being souls who have received the blessing of immortality? You are constantly moving along whilst sustained with blessings, are you not? Those who have unbroken love for the Father receive the blessing of immortality; they are constantly carefree emperors. Whilst being an instrument for any task, to remain carefree in that is a speciality. Just as the Father has become the Instrument, but, whilst being the Instrument, He is detached

and this is why he is carefree, in the same way, *follow* the *Father*. Constantly continue to move along with the *safety* of love. On the basis of love, the Father makes you *safe* at all times and carries you forward by making you fly. You have this firm faith too, do you not? Your love and spiritual relationship have been forged. With this spiritual relationship, you have become so much loved by one another. BapDada has told the mothers one very easy thing of just one phrase. Simply remember the one phrase "My Baba!" That is all! You simply say, "My Baba!" and you receive all the treasures. This word "Baba" is the key to all treasures. Mothers like looking after keys, don't they? So BapDada has also given you a key. You can take whatever treasures you want. It is not a key to just one treasure; it is the key to all treasures. Simply continue to say, "Baba, Baba!" and you will become a child and a master now and a master in the future too. Continue to dance in this happiness constantly. Achcha.

Blessing: May you gain victory easily over all situations on the basis of faith and intoxication and become an embodiment of success.

With yoga, now attain such power that even a lack of attainment gives you the experience of attainment. Faith and intoxication make you victorious in every situation. As you progress further, such *papers* will come that you will have to eat dry chapattis. However, faith, intoxication and power from success of yoga will make even dry chapattis soft. You won't be distressed by this. Just stay in your dignity of being an embodiment of success and no one will be able to disturb you. If you have facilities, use them with comfort, but *check* that you are not deceived at the critical time.

Slogan: Be an instrument and play your accurate *part* and you will continue to receive help from everyone's co-operation.
