

Avyakt Signals - April 2013

Become a conqueror of the mind, a conqueror of Maya and a conqueror of the world.

- 1) A conqueror of the mind means being a conqueror of waste and sinful thoughts. Children who have conquered these claim a right to the kingdom of the world and this is why it is remembered: Conquer the mind and you become a conqueror of the world. To the extent that you have a right over the power of thought, that is, the mind, to that extent you become one who has a right to the kingdom of the world.
- 2) In order to become a conqueror of the mind, become a master almighty authority. The way to become a master almighty authority is to accumulate the powers of remembrance and service as you move along and to donate those to others. To the extent that you remain busy in giving, accordingly you will remain a conqueror of Maya. For this, make a daily timetable for your mind. If your mind remains busy, you will definitely become a conqueror of the mind and a conqueror of Maya.
- 3) Check whether your mind, intellect and sanskars are under your control. Are you making your mind work or is your mind making you work? When you complain that you are not able to focus your mind or that your mind is wandering, are you then a conqueror of your mind? You think: "Today, my mind is unhappy" or "Today, my mind is attracted in another direction". Are these the thoughts of someone who is victorious? How can those who are unable to gain victory over the self gain victory over the world? For this, check to what extent you have become a conqueror of the senses and a conqueror of the mind.
- 4) Make your mind work under your orders. Your mind should focus wherever you want it to in a second; it should become stable. Do this exercise. Those who are constantly masters of their minds and control their minds with the power of concentration, who are conquerors of their minds and so conquerors of the world are those who have the personality of purity; the speciality of Brahmin life. This is why they remain constantly double light, the same as Father Brahma, and experience an angelic life.
- 5) Just as you put on a badge, in the same way, put the badge of victory on your forehead: I am a victorious soul who is a conqueror of the mind and so a conqueror of Maya. I am a world mother, a Shiv Shakti. By having both of these forms in your awareness, you will become a conqueror of Maya and with the motive of benefitting the world, you will become an instrument to benefit many souls.
- 6) In order to become a conqueror of Maya, make the Almighty Authority Father belong to you in all relationships. When all relationships are forged with the One, what else remains? When there is nothing else that remains, then where else can the intellect go? If the intellect is wandering here and there, it proves that you have not forged all relationships with the One.
- 7) Maya is very clever. In order to attack you, she will first of all isolate you by making you let go of the Father's company and His hand. When you are alone and weak, Maya then attacks you. Generally, when an enemy attacks anyone, he isolates that person from any other company. He would isolate that person in one way or another and then attack. Similarly, Maya also makes you let go of the hand and the company and then attacks you. If you do not let go of the hand and the company, Maya cannot do anything while you have the Almighty Authority with you. You will then become a conqueror of Maya.
- 8) In order to keep the Father constantly with you, keep yourself within the line of the code of conduct; do not step outside that line. When you go outside of it, you become a fakir (beggar) and you then keep saying: I should receive help! I should receive salvation! The meaning of becoming a beggar is that you lose your health and wealth. So, do not cross the line and do not become a beggar. By staying within the line, you will become a conqueror of Maya. By crossing the line, you will be defeated by Maya.
- 9) Having become Brahma Kumars and Kumaris, you have definitely become fortunate. However, together with being fortunate, you also have to become powerful. Just as the intoxication of being fortunate is imperishable, and no one

can destroy it, in the same way, take the blessing of being powerful from the Bestower of Blessings and you will never be defeated by Maya.

- 10) Warriors are deeply concerned about gaining victory. In the same way, is your love to become a conqueror of Maya ignited like a fire? The present time is the time to attain the fruit of service in the form of facilities and praise. If you accept this fruit at this time, you will then not be able to attain the fruit of the karmateet stage, the fruit of the completely tapaswi stage and the fruit of supersensuous joy.
- 11) If you have the faith, awareness and power that you have belonged to the Father and become a conqueror of Maya many times, why should it be difficult to become that now? Is the awareness not clear that you, the elevated soul, have played the part of being victorious many times? If this awareness is not clear, it is certain that you have not made yourself clear in front of the Father.
- 12) In the picture of the memorial of the Shaktis, the symbol of a conqueror of Maya is shown as the weapons and the crown of light, and the symbol of a conqueror of matter is shown as you riding a lion. These animals and birds are a symbol of nature. Even the elements of nature cannot put fear into one who is an embodiment of power. To be riding nature means to have a right. Even nature becomes your servant, that is, nature respects you.
- 13) Knowing the cleverness of Maya, become a conqueror of the mind and a conqueror of Maya. Check whether instead of it staying on its accurate destination, your mind is wandering towards temporary destinations. If your intellect is wandering against your conscious wish, if your mind is wandering, there is definitely some other destination. So, check all the limited destinations and finish them.
- 14) Only when you have determined thoughts for any situation will you have success. Only those who have determined thoughts become conquerors of Maya. You are not those who are going to be defeated by Maya, are you? It is when you are not able to recognize Maya that you are deceived. Those who are able to recognize can never be deceived.
- 15) Just as God's divine activity is limitless, so the children's divine activity is also limitless. There is some new splendour every day. Some children are coloured with Maya's new colours. Instead of spinning the discus of self-realisation, they spin the discus of waste thoughts. The habit that you have had from the copper age onwards, of listening to and relating wasteful stories with interest: this sanskar still comes in the slightest form even now. Therefore, you cannot be one who is holding the ornament of the lotus flower. Instead of being the lotus (kamal), you become weak (kamzor). You give others the message to become conquerors of Maya, but you don't even think about whether you are a conqueror of Maya or not and this is why you cannot hold those ornaments. Become one who is holding the ornaments (alankari), not one who has ego of the body, (ahankari).
- 16) A mahavir means one who is a constant conqueror of Maya. A mahavir is never afraid of Maya, but challenges her. Maya can come in any form, but a soul with the power of recognising can recognize Maya and become victorious. Can you recognise Maya when she is coming from a distance or only when Maya begins to attack you? To the extent that your power to recognise is sharp, accordingly, you will be able to chase away Maya from a distance.
