

DIFFERENCES IN RELIGION(R) SPIRITUALITY(S), SECULARISM (SE)

Confusion in Meaning

S differs from R as follows:

- Spirit exists independent of matter, a Divine Light
- Soul to soul relationship as Spiritual Brothers/in physical costume as Brothers/Sisters
- Soul is identified as a Being

➤ Soul has 7 Qualities

➤ To be free from sensuality

➤ Speaks of simple and direct communion between the Human Being & the Divine fraternal relationship with all people of all religions

➤ Religion Tolerance brings peace & harmony of our pluralistic society & Spirituality is able to accomplish this goal

➤ The practice of Spirituality does not bar a person from practicing their religion but help to form the inner dimension of their religion & enrich it.

- Spirituality has a goal to imbibe Virtues & Powers of Divine into Self, instead of only admiration of the Divine
- Spirituality enriches state of Higher Spiritual Self Respect, self - sovereignty
- In Spirituality no compulsion but self will, self responsibility to awaken moral conscience, wisdom power
- Practice of Spirituality is everywhere same
- When Religion follows Ideals, it is similar to Spirituality and when Secularism helps to stop anti-religious activities, it is complementary to Spirituality

Om Shanti
