

*Bhog Message (Pandav Bhawan) – Thurs, 25 June 2020*

By BK Shashiben

Today, on the day of the Satguru, as I entered the Subtle Region, I saw that the region appeared very beautiful decorated in light, like yesterday. However the decoration was different from yesterday's. Within the decoration of light, there were many beautiful garlands around the decorated image of Maha Lakshmi (four-armed Lakshmi). On one side, though the various forms of the Goddesses were not visible, but their specialities were displayed.

I watched this for a few seconds, and then a decorated Viman (flying vehicle) appeared from a distance and started to descend, in which were seated Baba, Mama, the Dadis and Maharathis of the Advanced Party.

As they came closer, Baba told Mama, "Look at what has been created today, Mama." While Mama was looking at the scene (of Maha Lakshmi), it seemed that she was very detached and loving. Baba too watched the scene, and the Advanced Party souls started to share virtues of Mama one after the other. Mama in her detached and loving form, looks towards Baba, and appeared to be in her perfect form.

I said, "Baba, where did you go today?" Baba replied, "Child, you know that this month is connected with Mama. Souls of the world are remembering the Mother in different forms, and so in her incognito form, Mama has been going touring different places; she is listening to the call of the devotees, and also witnessing the pure feelings of her own children (Brahmins)."

Mama smiled and signaled to Baba, asking him to take everyone to those places. Baba said, "It is the Mother's pure thought that everyone should be taken on a tour."

Baba then gestured, and many, many sisters and brothers appeared; in front of each one was a Pushpak Viman. Baba said, "Today, as per the Mother's pure wish, the Father wants to take the children on a tour of the entire world in the Vimans."

The flying vehicle was very beautiful, and after being seated, the Viman of some children started to shake up and down; the Viman of some did not ascend, and the Viman of others did ascend but got suspended in between the earth and sky. Baba said, "Come on, get ready! We have to leave now." But these situations continued.

Baba asked the children to look closely. Very thin, incognito threads/lines were attached to the front of some Vimans, so Baba asked the children to cut off these threads. Some children were able to cut the threads, but these threads then got so entangled and created knots that were a problem for the Vimans. Others were not able to cut their threads; some took hold of the threads and shook them hard. Baba was watching everything, and Mama was giving very loving drishti. Mama then signaled to Baba, requesting Him to empower the children.

Baba explained, "According to the time, the children have to practise flying, however the children are instead creating subtle threads of a variety of their thoughts, and making bondages out of their thoughts because of which they are unable to fly even though they want to." Baba looked towards Mama asking her what is to be done. Mama smiled, and indicated that Baba should reply.

Baba replied, "Firstly, the children have to become *jhaktu* (sacrifice themselves instantly). Just as Mama offered/sacrificed everything in a second, similarly you have to become *jhatku*. There is still a difference between the children's act of offering all that they have, and becoming surrendered. To offer everything means to offer all thoughts to Baba, but instead of putting an end to such thoughts, the children continue to expand on them. So now, place the matters of your mind in front of Baba, and become light. The more the children offer their thoughts in this way, there will be a transformation in your feelings of being surrendered. Offer everything with a determined thought, and surrender yourself even to the level of your thoughts.

"According to the time, you have the opportunity to serve a number of people, so make incognito effort, break the bondages of thoughts with a determined thought. Sometimes the children also create a veil of their thoughts, and they keep trying to look beyond the veil, but are not able to remove the veil and do what they need to. So now remove these veils."

The threads that were attached to the Vimans gradually lifted away and disappeared. The Vimans were free to take off, and as they ascended, Baba, Mama, Advanced Party souls, and all the Children were able to tour around the entire world.

Baba showed three scenes: 1) Many facilities are being invented at a fast speed to bring about transformation in the world, 2) There is a lot of upheaval in all four directions, 3) Scenes of what the new world will be like appeared.

Baba said, "The new world is to come, but the children are not yet ready for it. According to the time, keep yourself detached and loving in every situation, offer all your thoughts to Baba, become perfect, and the new world will emerge very soon, and you will be able to enter it."

I placed the Bhog in front of Baba. Baba said, "Everyone is remembering the beloved Mother, so Baba will first feed the Bhog to Mama today." Mama sweetly insisted that she wanted to feed Baba, so both fed each other. Baba gave everyone whom He has emerged in the Subtle Region loving drishti, and fed them Bhog.

Baba shared loving remembrances for all.
