

Amrit vela Greetings from Dadi Janki on Sunday 15th December 2014

Om shanti and good morning. Today's Sunday is a very sweet Sunday. Firstly, our Baba is going to come and secondly, it is third Sunday. My Baba has shown me the importance of third Sunday for world benefit, the discipline that Baba has given us for the evening is very, very valuable. God, the Father's beloved children, what can I share of my inner bhavna? My bhavna is that there is very little time remaining. We have found Baba, the Bestower of Liberation and Salvation, and so my actions should be very elevated because we have to go to the golden-aged kingdom and the land of liberation. All of us are sitting here to go to the land of liberation. Baba has sat us in His lap and on His eyes and is taking us beyond. Baba is taking us to the land of liberation.

We will go to the golden age according to our actions, so I should not be performing any ordinary small or big actions that it causes something to be lacking in my status. No, I cannot do this. I have to check this and instantly change myself. This is a gift that Baba has given. There will be loss for me in the slightest carelessness or in thinking about others. Pay attention and have no tension. This is very good time to pay attention. The discipline of amrit vela has brought so much happiness. At amrit vela, Baba sits us children in front of Him and then beside Him. By sitting in front of Him, we receive so much power. When He sits us beside Him, then the feeling is that the whole world should receive sakaash.

There is so much difference between sakaash and sneh (love). First Baba gives us love and then He gives sakaash. My brothers and sisters, none of you should ever miss amrit vela. Amrit vela is the boat of truth and Baba sits us in this to take us across. Now, my heart's desire is to remain a resident of the land of silence and as My Baba is sitting in the land of silence and serving all of children from the subtle region so well. He is sustaining us and taking us into the depth of the study. Yesterday, Baba said: This is a study in which you have to churn the ocean of knowledge. Day before that, Baba had said: This knowledge is such that by churning it you receive great happiness. Baba tells us such sweet things. By telling us such sweet things He has given an order to my mind. Focus your mind on Me, not on your body or your wealth or relationships. You may have surrendered but still check that your mind is not going anywhere into the past or in the things of the present that bring you temporary happiness. No. I belong to one Baba and none other and Baba has given everything. I have to remain a satisfied and contented soul. What can I tell you, Baba? You are seeing me. Your drishti and bhavna has accepted me with soul and heart. Thank you Baba, thank you my family who accept my bhavna through Baba. Thank you. Om shanti. Om shanti.
