

Dadi Janki - 24th December 2014 - SV

There is deep significance in the knowledge of drama...

Whose might has brought me in front of you today? It is Baba's might and the love of the family. Baba gives us might but not only that... we are also receiving Baba's love...

We have so many attainments in this life. We have cleanliness, truthfulness, love and co-operation. In order to accumulate these we have to stop listening, speaking and thinking negatively about others. Many situations will come but we have to face them all and not keep expanding and repeating them. This is our life... We need to live it well. The knowledge of the drama has a deep significance; no one's part can be the same as another's. What is the point in thinking about things again and again? We are Baba's family. There should be a great deal of love. I should have true love for Baba. Baba has shown his love by becoming avyakt. Our duty is to do service of others.

(Dadi was to go to London on the 26th December but due to her health she will now be remaining in India for the time being. Thus, Jayanti Bhen came to India instead).

Jayanti Bhen: Drama is drama... whatever happens is drama. Everyone (in London) was preparing a lot to celebrate Christmas, New Year and Dadi's birthday. However, according to the drama plan, I came to Bharat. It is Baba's wonder; yesterday Dadi was in ICU however, within 12 hours she came out and came to Madhuban! It was Dadi's courage and the love of the family that enabled this. All the doctors were amazed. Dadi told her doctors that she is alive not due to the doctors but thanks to Him.

Dadi Janki: In the last three days I haven't eaten or even drunk anything. Science is used for both destruction and establishment. When situations come in front of us, science can also help us cross them. We also make the elements subservient to us. Baba has made it clear to us that whatever condition the body is in, amrit vela should not be missed.

Baba is my Protector. I have to also protect myself. I have to use what Baba has shown me to keep my stage stable now. I should not be fluctuating and going up and down all the time. He is the Teacher and the Protector. He gives us teachings for our every step. He also protects us. How can I protect myself? By not allowing myself to think anything wasteful about others. This is the method to make your mind peaceful and your body cool. It is time for us to establish such a world..

Om Shanti

.
