Become a King

Just 6 years after I left India for Kenya, Africa, I asked Dadi to come to Nairobi because I cannot solve a challenge in seva. Dadi replied, "I will not come nor will I call you because you are the meaning of my name Janki - Key of my Life. You will be able to do what I am able to do because you are the Key of my life. You are doing Raja Yoga so to become a king you solve the problem yourself. When the problem is solved I will come there or call you here." These courageous words gave me new vision in life. She injected me with courage and created new zeal and enthusiasm. That seemingly big problem became so small such that it was solved easily.

Words of Wisdom

Some of Baba's words need to be imprinted on our hearts, so we can emerge them naturally. Have the feeling of dedicating yourself to Baba. Have full faith in this. Keep courage and Baba is there to help out. In order to bring transformation within, we need to realize that this life is a pilgrimage and it is time to withdraw and accommodate everything before returning Home.

Say to Baba, "Sweet Baba, lovely Baba, come to me." See then how Baba becomes your helper. When you have courage Baba will help you. If you have a task to perform and you experience some difficulty with it, say, "Baba come to me. You are always with me. You are in my heart." Baba will then be there to help you and everything will become very easy for you. Baba tells us

to make use of Him in this way. God is sitting in your heart and so from now onwards your face should always be cheerful. Maya will see that this one is cheerful because God is with this soul and she will become afraid and not come near you.

You are those who are free from all kinds of problems and are the embodiments of solutions. You are all so sweet. What should I tell you all? You tell me that if I come to your place of service I would understand what problems there really are. Yet I have not come this far without challenges. In fact, it depends on my stage. My stage should be such that problems disappear and solutions emerge easily. What is the method to become free from problems? Time is very valuable and we need time to become the embodiments of solutions. Problems need not waste our time. Wasting time on problems doesn't allow us to experience the stage of super sensuous joy.

Drishti Point

I see all situations with the eye of solutions. Every moment and each relationship can be managed with peace, love, and patience.

Karma Yoga Point

With the blessing of time and faith in the self, I step through all challenges and bring harmony and acceptance to all scenes.
