

## Dadi Janki - 28.7.19 Evening - GCH, London

### This benevolent Confluence Age

**Sister Jayanti** welcomed Dadi, Hansaben, Deviben and Urvashiben (GCH). [Speaking to Dadi]: Everytime you come it feels you return even younger! Today is Didi's day and so I am very happy you have arrived on this special day.

**Urvashiben** shared about the month she'd spent in Madhuban helping Deviben look after Dadi: Every second and minute is used well and it's amazing to see what Dadi, Hansa and Devi do. Dadi is working on so many levels, through drishti and subtly touching hearts.

**Hansaben:** On the path of bhakti we hear God has many forms and we see also Dadi has many forms. She is very alert and active, giving us orders! She is getting younger. We thought maybe she would slow down and yet she is moving now faster than all of us. She flies, speaks and does service. I told Dadi to slow down a little as I cannot keep up! We know that Dadi wants to reveal Baba in one day across the world. She flies across the world like Hanuman. Opening her heart with just Rama inside. She touches each one's heart. When we go back to Madhuban from London they are happy as she comes back with new energy. From the time that Dadi has come she has given many directions. I don't know what she will do in the next four days. Dadi was serving morning and evening in Shantivan and so now both East and West are happy.

**Deviben:** It feels like I was just here and back again and we are going into the room next door.

### Dadi Janki

I am here until 6<sup>th</sup> August, so if anyone wishes to say anything I am ready to hear it. This is the benevolent Confluence Age. There are four subjects: Gyan, Yoga, Dharna and Seva. Seva is last and happens naturally. I am a soul and God is mine. He belongs to me. Look in the mirror of your heart. Is God sitting in there? Or is He in your eyes or head? Where is He? Do you feel you have set Baba in your heart, kept Him in there and made Him belong to you?

The air hostesses I met sat us in the front row and looked after us with love. I tied rakhis on them and gave them toli. So, wherever we go, listen to these words (boli) and become holi and eat toli!

Bhattis are taking place continuously in Madhuban. Wherever they sit me, they say: Give a message. Baba is pulling us through the drishti. I feel that they catch the atmosphere here and here we catch the atmosphere there! Do you feel that? Dadi doesn't want anyone to get upset.

By evening, I don't remember what happened in the morning. Whatever is to happen tomorrow - we will see when it happens. *Have patience, oh mind...* Baba speaks a lot about purity in the murlis and this is why He says that lust is the greatest enemy and we must not have the slightest thought of impurity. It says in the song: *Oh God show the path to the blind.* God has given us eyes with which to see. When giving toli, give drishti. Baba is present. In order to keep the atmosphere powerful always pay attention and don't have tension about anything. Remember Alpha and beta - Allah and the kingdom. We have found Allah, God. We receive the kingdom to remain carefree. Is anyone worried about their body or their children? Is everyone free from all types of worry? There are no thoughts about anything - just staying carefree? The memory track is very subtle. You are all feeling: 'I have faith in the intellect' and so can remain carefree. Victory is guaranteed; it is already achieved. So check your thoughts: are there any about anyone - even the self? Do not have any thoughts.

Do you remember 'purity, truth, patience, humility and sweetness' and the 8 powers? Baba is the Almighty Authority and is with us and so, when we are in activity the 8 powers are with us. Always be co-operative in everything. When the heart is honest, the Lord is pleased. Be free from the slightest falsehood and any animosity or grudges. Is that ok?

Om Shanti
