## Discovering God's Plan for the Golden Age

Yesterday's murli opened our ears. Baba asked and answered 31 questions. There's such happiness from listening to the murli. We are not busy but lucky. In factories machines are running, here Baba's machinery is running – automatically. Baba makes us His companion but He takes our accounts, too. He has given us such a lot of love in our childhood and we have to return that a thousandfold. It's a big business, and there is great income. In the beginning gyan was so small: just I, the soul and the Supreme Soul. Now we understand that Baba is making us kings of kings. He expects us to come into the sun, not the moon dynasty. Now we are masters of the cycle, we spin it in our intellect and, as 'conquerors of attachment', our memory becomes powerful.

The knowledge of God is given only by God. In the beginning He did not tell us what would confuse us but explained everything at the right time. He prepared our intellects, so that we would be able to understand. Earlier we just thought, "Who is doing all this through Brahma?" There was just the attraction of Baba; someone was pulling us. First the child was born and then he was given the name Brahma. Shiv Baba slowly explained everything through Brahma Baba, which Brahma Baba then explained to us. We would just say, "Baba, Baba" and there would just be light, light. We felt very light and detached from the old world and all the ornaments very easily – making the transition to white clothes and empty pockets. We did not know at that time that we were Brahmins who would become deities. The Godly attraction was just pulling us and we became Brahmins. We never said, "I will try." The attraction was only directly for Baba, never for a particular sister. Baba is only One and we belong to Him.

Now we have to become karmateet. There has to be constant remembrance in the intellect. Whilst performing physical actions, we have to stay internally detached and connected to Baba. Dadi has very good wishes that all should become karmateet. We have to make effort before the end. Just see what Brahma Baba did.

Yesterday's topic was *What is God's plan for the golden age?* Brahma Baba has given such sustenance both in sakar and avyakt form. He made all the preparations. He showed us how to sit, eat and sleep accurately. Our eye has opened. There should now be no gap between thinking and doing – no "This is good - I will try".

Baba caught us like fish in His net of Truth and Purity. Before that we were caught in the net of Maya. Seeing Baba in front, we become detached. We are the magicians...

Om shanti.
